

## 100e rock drill

What is a rock drill 100?

Rock drill 100 has been developed to meet the special lubrication requirements of Epiroc DTH, pneumatic, and hydraulic rock drills. It is designed to maintain high oil film strength and effectively lubricate even under the most demanding conditions.

What is marathon rock drill oil 100?

Marathon Rock Drill Oil 100 is packed with extreme pressure and rust prevention additives that contribute to lasting protection. Additionally, Marathon's advanced formulation features a high concentration of emulsibility and tackiness agents, which helps keep water from wetting metal surfaces or displacing the lubricant.

How does a pl100 rock drill work?

A polyurethane cover protects the equipment, reduces noise and enhance vibration-damping. Hold the drill firmly in the front handle. The removable carry handle on top makes it easy to move around. All four pusher legs of the PL100's are connected to the rock drill via a single port connection.

Aries lubricants are formulated to help meet the critical lubrication demands of percussion rock drills. Their effective extreme pressure performance helps provide protection for the rock drill ...

Mag 1 Rock Drill Oil is formulated using high quality Group II, severely hydrocracked, high-viscosity index, paraffinic base stocks. It may be used for ...

The HRD system consists of the rock drill, power pack and a selection of pusher legs. Together they have two missions: The first is to provide hydraulic drilling that helps you exceed your ...

Mag 1 Rock Drill Oil is formulated using high quality Group II, severely hydrocracked, high-viscosity index, paraffinic base stocks. It may be used for internal lubrication of all makes of ...
