

190kW down-the-hole drill rig

Discover the impact of Down the Hole Hammers (DTH hammers) in urban redevelopment projects. Learn how these specialized tools enable ...

A "down the hole" (DTH) drill is a drilling equipment used in mining, construction, and exploration activities. It is specifically designed for drilling large-diameter ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the ...

Down-the-hole drilling rigs | Choosing the right drilling rig You could need a drilling rig for a multitude of applications, for example to drill a well to access a ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to break rock instead of excavating it. ...

The KT15 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and ...

OPERATING THE HAMMER - Only operate the controls while the engine is running - Proper PPE must be worn when you are operating the drill rig and the hammer - Before you move the ...

Applications The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig ...

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology. Renowned for its efficiency, precision, and versatility, this equipment has ...

FlexiROC D65 is a down-the-hole drill (DTH) rig well suited to large-scale production work; pre-split operations; reverse circulation (RC), in-pit grade ...

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the

190kW down-the-hole drill rig

bottom of a drill string. The fast hammer action breaks hard rock into small ...

PowerROC D60, a hydraulic down-the-hole drill rig, perfectly meets the needs of open-pit mines and quarries when it comes to drilling big holes. With the well ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built structures, a high horsepower engine and large ...

FlexiROC D65 is a down-the-hole drill (DTH) rig well suited to large-scale production work; pre-split operations; reverse circulation (RC), in-pit grade control for in surface mining operations; ...

Corporate brochure BRIEF INTRODUCTION OF HW DTH DRILLING RIG The down-the-hole drill rig is an impact rotary drill rig. Its internal structure is different from that of a general rock drill. ...

As a manufacturer of DTH drilling rigs, we provide this KT15C integrated down-the-hole drill rig for open use. It can drill vertical, inclined and horizontal holes, ...

Feature The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is located behind the drill bit and is ...

Once drilling starts, the Odex drill bit quickly cuts ahead of the steel casing which enables a number of "wings" on the bit to open out. The bit can now drill a hole ...

The TP-120H series surface top hammer drill rig is a versatile and efficient drilling solution designed for engineering and mining projects. With its telescopic ...

TECHNICAL SPECIFICATION Leopard DI650i is a diesel powered, self-contained crawler mounted intelligent down-the-hole drill rig designed for demanding high-capacity production ...

The KG726III/KG726HIII DTH drill rig for open use is an improved device in compliance with national regulations on environmental protection. Equipped ...

Explore TechCom's range of Down-the-Hole (DTH) hammer drilling rigs from world-leading manufacturers Epiroc and Sandvik. Reliable, efficient drilling solutions designed for open-pit ...

190kW down-the-hole drill rig

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Isn't it time you gave your operation the chance to profit from the added intelligence of the ...

Intelligent, automated and future-proof The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the mining, construction, and quarrying ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

Feature The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production ...
