Which rotary screw compressor is best?

The SFC 15 20-hp rotary screw compressors is the perfect solution for smaller compressed air systems with varying air demand to achieve significant energy savings while maintaining stable pressure. KAESER SFC units are up to 18% more efficient than the competition. The SFC 15T model has an integrated dryer.

What is a 20 CFM compressor?

The key factor here is that the capacity of a compressor is always expressed at atmospheric pressure, not discharge pressure. A capacity of 20 CFM means that the compressor can suck up 20 cubic feet of air at atmospheric pressure every minute. Then it will compress this volume to the final operating pressure.
