

A complete collection of accessories for down-the-hole drilling rigs for slope excavation

Who makes down the hole drilling tools?

Down the Hole Drilling Tools - Since 1987, America West Drilling Supply company has earned a reputation as a world leader, producer, and supplier of cutting edge drilling equipment. As manufacturers of Down the Hole and Reverse Circulation Hammers, we provide most of the supplies needed for any small or large project around the globe.

What types of drilling equipment are available?

Our extensive product line of drilling equipment includes DTH and reverse circulation hammers and bits, as well as various styles of rotary bits. Drill string products include adaptor subs, shock absorbers, drill steel, oilers, thread lubes, and more.

What are rotary drilling accessories?

Such project needs are handled using various rotary drilling equipment, rotary tools, and spare parts. Each Rotary drilling accessory plays a critical part in the rig's functionality, and building a familiarity with them will ensure safety, better efficiency, and overall enhanced performance.

What are drilling tools lift bails & caps?

Drilling Tools' lift bails and caps serve two primary functions. They protect the API threads from potential handling damage and offer an easy way to lift and place tools as required. Drilling Tools' baffle plates help protect Bottom Hole Assembly equipment from damage from objects missed by conventional screens.

Does drilling supply store sell drilling rigs?

With Drilling Supply Store, buying drilling tools has never been easier. We offer a complete line of drilling rigs for mineral exploration (RC drilling and coring), water well and geothermal drilling, foundations and other construction or mining applications. FIND OUT MORE ABOUT OUR DRILLING RIGS. © 2022 Drilling Supply Store. All Rights Reserved.

What tools do you use to drill a rock?

The main tool that shears and breaks through the tough rock formation during drilling is much like the one we see in hand-held drills but on a bigger scale. These cutting tools are attached at the bottom of the drill string and come in various shapes and sizes. Common examples include the Tri-cone bit and Fixed cutter bit. II. Circulation System

SWD series down-the-hole drills are widely used in blasthole drilling applications for surface mining, construction and quarries. Hole diameters range from 138mm to 255mm ...

A complete collection of accessories for down-the-hole drilling rigs for slope excavation

Are you familiar with down hole drilling? This innovative method, also known as Down-the-Hole (DTH) drilling, is revolutionizing the mining and construction ...

Down The Hole Hammer Drill Rigs for Mining, the ZEGA D470A's diesel-powered, down-the-hole (DTH) drill has excellent mobility, a smaller footprint and the ability to serve multiple sites. It is ...

We have seen down-the-hole products being used in different applications all over the world. We can assist, not only with the complete drill string, but also with the knowledge to help our ...

A drilling method where drilling fluid and cuttings are brought to the surface through the inner tube of the drill pipe which is a hollow tube used to transmit drilling fluid and ...

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the ...

Full hydraulic down-the-hole (DTH) drilling rig is a drilling rig for sale that uses oil pressure to drive and control all moving parts in the process of adjusting the ...

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

Discover everything about construction drilling--from traditional and modern methods to equipment, applications in deep foundations, oil wells, and ...

CENTER ROCK manufacturers a full line of air rock drilling tools and accessories including our Down-the-Hole (DTH) hammers and bits from 3.5" - 48" (89 ...

Compresstech Resources, Inc. is a trusted provider of high-quality down-the-hole drilling rigs in the Philippines. Our products come from renowned brands ...

Down-the-hole (DTH) drilling is a method used to drill boreholes in hard rock formations for various applications such as mining, construction, and quarrying. This technique involves a ...

Rotary drilling rigs are among the most sought-after drilling tools in the modern-day industry, thanks to their extreme efficiency and versatility, ranging from ...

The major part of understanding how a Rotary Drilling Rig works is getting familiar with the complex tools and accessories that make the operation possible. ...

A complete collection of accessories for down-the-hole drilling rigs for slope excavation

Slope Stabilization Canyon Equipment offers hydraulic and pneumatic rock drilling equipment for slope stabilization projects in remote access and is Heli ...

The drilling rig is equipped with the crawler leveling function, which makes the center of gravity of the drilling rig more stable up and down the slope, and the ...

The drilling rig is equipped with the crawler leveling function, which makes the center of gravity of the drilling rig more stable up and down the slope, and the powerful operation capacity ...

Crawler DTH Drilling Rig Introduction The crawler-type down-the-hole drilling rig is a new type of comprehensive drilling rig specially used for rotary drilling of soft rock. It adopts new hydraulic ...

Zhejiang Miningwell Supply Chain Management Co.,Ltd: With more than 20 years of experience in mining equipment production, D Miningwell has own ...

Canyon Equipment specializes in rock drilling equipment for all forms of civil construction, quarries, open pit mining and underground exploration. We ...

HARDAB down-the-hole surface drilling rigs are designed for high-capacity rock drilling in quarries, opencast mines and rock excavation projects. Our drill rigs ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

DTH hammer is used for drilling holes through a wide range of rock types, the variety of which continues to extend well beyond the original conception of early blast hole drilling. Down-the ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to break rock instead of excavating it. ...

Canyon Equipment Supplies Products For Mining, Tunnelling And Excavation Including Drilling Rigs And Drilling Equipment. View Our Product Line.

Drilling Tools International offers a full line of surface and downhole accessories related to downhole drilling tools and Bottom Hole Assembly (BHA) components.

Drill Tech International also supplier a complete line of Reverse Circulation tools and accessories. Feel free to contact Drill Tech International for more information on RC drilling, custom RC ...

A complete collection of accessories for down-the-hole drilling rigs for slope excavation

Crawler DTH Drilling Rig Introduction The crawler-type down-the-hole drilling rig is a new type of comprehensive drilling rig specially used for rotary drilling of ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...
