What is a DTH drilling machine?

The DTH drilling machine is also known as a rock drill, and it is an important tool that is used in the mining industry. The machine consists of a drill bit, a hammer, and a compressor. The drill bit is made of tungsten carbide and is attached to the end of the drill pipe. The hammer is used to strike the drill bit and create a hole in the ground.

What are the different types of DTH drilling machines?

The rotary type of DTH drilling machine is the most popular type of DTH drilling machine because it is very efficient and it can drill large holes in a short amount of time. This type of DTH drilling machine is very similar to the rotary type, but it uses a crawler instead of a rotating drill bit.

How do I find a good price on a DTH drilling machine?

Ultimately, the best way to find a great price on a DTH drilling machine is to do your research and compare prices from multiple sources. By taking the time to do this, you'll be sure to find the best possible deal on the perfect machine for your client's needs.
