

Australia integrated down-the-hole drill rig

Will Sandvik's new drill rig work in Australia?

Leading Australian drill-and-blast contractor SRG Global has begun putting Sandvik's newest down-the-hole drill rig to use across its operations, with highly encouraging results. SRG Global accepted delivery of the world's first Sandvik Leopard™ DI650i Gen2 surface drill in Western Australia in early May.

What is a leopard di650i drill rig?

Leopard™ (TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and large quarry applications.

What is the iDrill drilling cycle?

The result is an optimized iDrill drilling cycle where the operator only needs to monitor the process. The iDrill drilling cycle of Leopard™ (TM) DI650i is engineered to ensure consistent high-quality drilled holes. It supports the fleet operator by minimizing common drilling errors, such as hole inclination, depth and positioning errors.

Does Sandvik have a DTH drill rig?

Sandvik Mining and Rock Solutions is evolving its Leopard™ (TM) DI650i down-the-hole (DTH) drill rig to support fully autonomous operation.

What makes a good drilling machine?

Robust design built to last and adds safety to daily work. An accurate control system with simple icon displays makes drilling easy. Clear gauges for drilling parameters, compressed air, feed and rotation pressure are some of the features that also guide the operator for more productive drilling.

Which Sandvik rigs do SRG Global use?

SRG Global operates a mix rig fleet dominated by Sandvik products. The new Leopard DI650i Gen2 joins several first generation Leopard DI650i rigs as well as Pantera DP1500is. As the first Gen2 in commercial operation anywhere in the world, the new drill will be closely monitored by Sandvik and the data collected used to enhance future products.

Integrated down the hole drill rigs Kaishan Group Co., Ltd. is a well-equipped company with strong technical force, specialized in Water Well Drilling Rig, Screw air compressor, Surface ...

Applications The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down

Australia integrated down-the-hole drill rig

the hole drilling system and screw air compressor ...

The KT11 integrated down the hole drill rig for open use can drilling vertical, incined and horizontal holes, mainly used for open-pit mine.stonework blast holes and pre-splitting holes. it is driven ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw compression system and ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

KT12 Integrated Down the hole Drill Rig The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw ...

Sandvik Mining and Rock Solutions is evolving its Leopard(TM) DI650i down-the-hole (DTH) drill rig to support fully autonomous operation.

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

The ZT10 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...

The KT12 integrated down the hole dnil rig for open use can driling vertical, inclined and horizontal holes, mainly used for open-pit minestonework blast ...

Leopard(TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and ...

Products Description The ZT5 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, ...

Australia integrated down-the-hole drill rig

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air ...

The KT11 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive the ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

Products Description The KT9C integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system, ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system, characterized by compact ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

The ZT10 integrated down the hole drill rig for open use is a new drilling device developed by Kaishan Group after years of development and production of down the hole drill rig to meet the ...

The ZEGA D535T integrated down-hole drilling rig of Zhigao Excavation is an upgrade on the basis of mature models, and the core hydraulic components are selected from ...

Products Description KT7H integrated open-pit DTH drilling rig is a drilling equipment which integrates DTH drilling system and screw air compression system. It can drill vertical, inclined ...

An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard rock formations. It combines ...

The ZT10 integrated down the hole drill rig for open use is a new drilling device developed by Kaishan Group after years of development and production of ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH blasthole drilling in mining, quarry and ...

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the ...

Australia integrated down-the-hole drill rig
