

Australian hospital air compressor screw

Who is screw compressor spares?

Screw Compressor Spares is a dynamic 100% Australian company specialising in Compressed Air and associated Equipment, delivering nationwide. With many years experience in the compressed air industry this is not just a replacement filter store. Need technical assistance or don't see what you need, just contact us.

What is a screw air compressor?

Screw air compressors have fewer moving parts than piston models, which means lower maintenance requirements and less downtime. When properly maintained, many screw compressors exceed 80,000 hours of operation, offering a long-term and cost-effective solution for continuous use.

Are Hitachi CSI & CSF air compressors made in Australia?

Hitachi Global Air Power's Champion CSI & CSF series air compressors offer a reliable rotary screw compressed air solution--proudly made in Australia, for Australia. Designed to exceed industry standards, these compressors ensure uninterrupted productivity and performance for your operations, delivering locally-made quality you can count on.

What is a rotary screw air compressor?

Rotary screw air compressors have twin-screw elements that compress air continually, resulting in an air source that's less dependent on external elements. If your field operations require a constant, full shift air supply, this is the type you need. Why Choose Rotary Screw Air Compressors?

What is a portable screw air compressor?

Portable screw air compressors are ideal for road construction/repair and civil works alike. Because of their clean airflow, consistent output, and efficiency, these machines can run hammers, breakers, or pneumatic construction tools easily.

Are rotary screw air compressors safe?

Because our rotary screw air compressors are designed for Australian conditions, they have been built to be compliant with and exceed stringent local safety standards and regulations. Rotary screw air compressors can be used in various industries because of their versatility. We discuss them below.
