

British screw air compressor consumables

Should I buy genuine CompAir air compressor parts and spares?

For performance that doesn't falter and reliability that you can trust, only buy genuine CompAir air compressor parts and spares. Genuine parts are those that have been designed, manufactured, and engineered specifically for your compressor brand and model.

Are SCR compressors a good choice?

SCR compressors are my first choice when it comes to offering my customers a new machine. SCR Air Ltd have a wealth of experience in Industrial Oil Injected Screw Compressors, Variable Speed Compressors, Oil Free compressors and Energy Savings.

What are genuine compressor parts?

Genuine parts are those that have been designed, manufactured, and engineered specifically for your compressor brand and model. They are the only parts that will keep your system integrity intact and ensure your compressor performs as if it were new after each service intervention.

Which screw compressor is best?

The PM2 range is our best-selling screw compressor, featuring the very latest energy-saving technology. With an IE4 oil-cooled permanent magnet motor and 1:1 direct drive, saving energy has never been so affordable. The APM range showcases more of our best-selling screw compressors, featuring the very latest energy-saving technology.

Why do you need OEM air compressor consumables?

They are the only parts that will keep your system integrity intact and ensure your compressor performs as if it were new after each service intervention. To maintain operational capability at the high standard you expect from CompAir air equipment, genuine OEM consumables are the smart choice.

What is a genuine replacement for a compressed air system?

Genuine replacements represent the best of engineering and professional quality. They are specifically developed to suit the operating parameters of the equipment they are designed for. Essential in upholding the standard of your compressed air network, genuine parts ensure smooth operation at optimal efficiency 24 hours a day, 7 days a week.
