Where can I buy air conditioning parts online?

When your air needs repair, Auto Air Online is the best source for all your automotive air conditioning parts online. We specialize in quality new and remanufactured air conditioning compressors and other auto air conditioning parts. Why buy from us?

How does a car air conditioner compressor work?

The compressor, the "heart" of the car's air conditioning system works like a pump taking refrigerant, (R-12 in older cars, R-134a in 1995 and newer cars) and pressurizing it, passing it along to the evaporator. The AC compressor has several moving parts (including pistons and valves).

When should I replace my air compressor?

You will likely need to replace a worn compressor belt, broken valves, bolts, worn piston rings, a bent crankshaft, and an expired head gasket at some point in your air compressor's lifetime. Whenever you run into an issue with your compressor, it is important that you find the parts you need and fix it quickly before a larger problem is created.
