

Chain type double hydraulic power down-the-hole drill rig

The expanded pitch and lifting-arm hydraulic cylinder allow the drill rig to meet the operating requirements in extreme positions. The double-motor rotation increases the rotary torque and ...

Earth Drilling's Foremost manufactured Dual Rotary, DR-24, will set up to 24 inch diameter casing. The drill rig is mounted on a Kenworth T-800 tridem axle unit, eliminating road ban ...

Compact design, maximum power. The DR411iE delivers high productivity for both rotary and DTH production blast holes. Equipped with the full suite of Sandvik iSeries technology, it ...

The down-the-hole drilling rig uses the impactor and the DTH drill bits submerged into the bottom of the hole to impact and crush the rock. Therefore, it is called ...

The Sino Mechanical of Power Tongs are used on drilling rigs to screw and unscrew tubing or casing to a specific torque. We stock hard to find tubing and casing power tongs.

Leopard(TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

As a seasoned manufacturer specializing in rock drilling equipment and associated tools, we export our range of rock drills, down-the-hole drills, top ...

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for open use drilling operations. Equipped with a Yuchai four-cylinder engine, the drill ...

Rock Drilling There are three methods of rock drilling for production holes: Rotary high rotational speed, low torque and thrust low ...

COMPONENTS The hydraulic power unit, driven by a Petrol or diesel motor, direct drive twin hydraulic pump arrangement for dual function control without slowing auger rotation. The drill ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is ...

Chain type double hydraulic power down-the-hole drill rig

Air capacity is the most important factor affecting down-the-hole performance. The engine and compressor in a SmartROC drill rig are controlled by an intelligent system which delivers more ...

And it can use liquid and air as media to wash rock dust. The power system can adopt diesel engine or electric motor. From a practical point of view, hydraulic rig machine do have certain ...

Crawler Blasting Rig ZT5 Mining Blast Hole Down The Hole Drilling Rigs With Built-in Compressor ZT5 integrated open-air DTH drilling rig is an advanced ...

Explore the different types of drilling rigs from the oil and gas industry and understand how each one is built for specific depths, locations, ...

DTH Drilling Rigs for Geothermal Energy Development Geothermal DTH (Down-the-Hole) drilling rig DTH (Down-the-Hole) Drilling DTH Drilling Rigs for Geothermal Energy Development 35HP down the Hole Drilling Rig Geothermal Energy Development down the Hole Drilling Rig All KVA ...

The function of a derrick is to provide the vertical clearance necessary for raising and lowering the drill string into and out of the hole during drilling operations.

The down-the-hole drilling machine is suitable for large-diameter blast hole rock drilling operations in small and medium-sized mines, road construction, water conservancy, and stonework, as ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine,stonework blast holes and pre-splitting holes. It ...

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for open use drilling operations. Equipped with a Yuchai ...

This model is a full-hydraulic gyrator-type anchoring engineering drilling rig, which is mainly suitable for engineering construction such as foundation pit support and control of building ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH blasthole drilling in mining, quarry and ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine,stonework blast ...

Down-the-Hole (DTH) drilling is a technique used to create deep, precise holes in hard rock and challenging ground conditions. In this method, ...

Chain type double hydraulic power down-the-hole drill rig

The flushing drill fluid rises inside the drill rod and brings the drill cuttings to the surface. This technique can be used for soil or rock drilling. Down-the-Hole ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the mining, construction, and quarrying ...
