

Doosan excavator modified rock drill video

Are Doosan excavators good?

The Doosan machines are fast, quite reliable, easy on fuel and a nice machine to run. Yes the cab is cheap and somewhat crappy but the old Daewoo 130 I ran was nice, the only excavator I have ever run with a tachometer. They will give you great service and dealer support in Canada is decent.

Who makes Doosan excavators?

Doosan Infracore North America, LLC, headquartered in Suwanee, Georgia, markets the Doosan brand of products that includes crawler excavators, wheel excavators, mini excavators, wheel loaders, articulated dump trucks, material handlers, log loaders and attachments. The company has more than 150 heavy equipment dealer locations in North America.

How does a rock excavator work?

One excavator can complete the rock drilling and splitting operations. This saves the costly use of a rock drill. There is no need to frequently move the equipment during work, which greatly improves rock breaking efficiency.
