

Discover how choosing the right down-the-hole drill bit material can impact drilling costs, efficiency, and lifespan, optimizing performance and reducing expenses.

The DCRL130 down-the-hole (DTH) drill uses a clean engine that complies with emission regulations (EPA Tier 4 Final / EU Stage V). The "Super Economy Mode PLUS" ...

Furukawa Rock Drill has developed and is now selling the DCR L130-F5, a new series of down-the-hole (DTH) drills, in the US and European ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

BIT SELECTION The proper selection of the drill bit can substantially increase the penetration rate, reduce drilling cost, and improve motor performance. lity to clean the hole. An undersized ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

The size of the down-the-hole hammer mainly depends on the drill hole diameter and rock type. For blast holes, the hole diameter range of down-the-hole drilling is from 89mm ...

OPERATING THE HAMMER - Only operate the controls while the engine is running - Proper PPE must be worn when you are operating the drill rig and the hammer - Before you move the ...

The iMS monitor screen allows selection of the engine speed during drilling from three levels (1600, 1800, and 2000 min-1), and by selecting the ...

Manufacturers of the Rotary Drilling Rig Machine. REL Specialized in Rotary Blast Hole Drill Rig, Down the Hole Drills for Mining, Quarrying & Construction.

Experience the leadership in drilling The Epiroc IDM30 drill is a crawler mounted, blasthole drill rig for down the hole and rotary drilling popular in the most aggressive coal, limestone and iron ...

Down the Hole (DTH) Drilling A down-the-hole drill, usually called DTH is mainly a pneumatic powered rock or ground drill, in which the percussive hammer is located directly behind the ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to

Down-the-hole drill engine selection

break rock instead of excavating it. ...

Down the Hole Bits Looking for Bits for your down the hole (DTH) drilling? International Driller's Supply carries the largest selection in North America. ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Furukawa Rock Drill has developed and is now selling the DCR L130-F5, a new series of down-the-hole (DTH) drills, in the US and European markets.

Choosing the right down-the-hole (DTH) drill and drill bits is essential for an efficient and successful drilling project. Tianhe Drilling Solutions offers a ...

Black Diamond Drilling DTH Down The Hole Bit Shanks Selection Chart The document lists various types of drilling bits and their specifications, including ...

TECHNICAL SPECIFICATION Leopard DI650i is a diesel powered, self-contained crawler mounted intelligent down-the-hole drill rig designed for demanding high-capacity production ...

Down-the-Hole (DTH) drilling is a technique used to create deep, precise holes in hard rock and challenging ground conditions. In this method, ...

Down-the-Hole (DTH) drilling Includes tool lubrication system 1050 cfm/350 psi 29.7 m³/min (1,050 ft³/min) @ 24.1 bar (350 psi) with 113.5 L (30 gal) tool oiler Rotary drilling ...

Introduction to Bottom Hole Assemblies Bottom Hole Assemblies (BHAs) are critical configurations of drilling tools and equipment used in oil and gas exploration. They are ...

This article will introduce the key factors to consider when choosing a down-the-hole drill to help buyers make wise decisions. First, the diameter and depth of the hole are the core indicators ...

DTH hole openers are used to enlarge the size of a pilot hole most commonly used in industrial applications. Benefits of drilling a smaller pilot hole are: The ability to use less powerful ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

A down-the-hole drill, usually called DTH Drilling Rig, is basically a mini jackhammer screwed on the bottom of a drill string. The speedy hammer ...

Down-the-hole drill engine selection

Air capacity is the most important factor affecting down-the-hole performance. The engine and compressor in a SmartROC drill rig are controlled by an intelligent system which delivers more ...

Conclusion Selecting the right Down The Hole Drill Rig not only affects project outcomes but also impacts safety and cost. By considering the key features, understanding ...

As the name suggests, the down-the-hole drilling rig is the equipment to drill holes in the ground. They can widely apply in various ...

In high-pressure down-the-hole (DTH) drilling projects, speed and efficiency are the ultimate goals. The most important "weapon" to achieve them? A high-quality, high-performance DTH ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and ...

We have seen down-the-hole products being used in different applications all over the world. We can assist, not only with the complete drill string, but also with ...
