

DTH hole openers are used to enlarge the size of a pilot hole most commonly used in industrial applications. Benefits of drilling a smaller pilot hole are: The ability to use less powerful ...

A down-the-hole drilling assembly activated by fluid under pressure includes a casing having an axially rearward and forward end, a piston arranged movably inside the casing, a plurality of ...

A down-the-hole drill hammer including a drill bit about a distal end of the hammer and a piston for percussively contacting the drill bit. The drill hammer further includes a valve assembly for ...

A down the hole drilling assembly having an elongate casing, a fluid powered piston, top and bottom working chambers, a plurality of fluid passages and an exhaust system, wherein the ...

A down-the-hole drill hammer comprising: a housing; a piston mounted within the housing and configured to reciprocally move within the housing along a longitudinal ...

Description Down the hole drilling assembly and apparatus Technical field The present invention relates to a down-the-hole hammer drill bit assembly arranged to drive the piston with higher ...

We offer a complete range of down-the-hole products including hammers, bits, pipes, adapters, reverse circulation products, breakout benches and grinding machines with consumables.

1. Introduction Down the hole (DTH) impactor is a kind of drilling tool used in mining industry. It uses high-pressure air to push the piston to hit the rotating drill bit. When the DTH ...

1 Introduction Down the hole (DTH) impactor is a kind of drilling tool used in the mining field. It uses high pressure air to push the piston to hit the rotating drill bit. When the DTH impactor is ...

A down-the-hole drill hammer (10) including a drill bit (18) about a distal end of the hammer and a piston (28) for percussively contacting the drill bit. The drill hammer further includes a valve ...

The present disclosure relates to a down-the-hole drilling assembly (11) activated by fluid under pressure. An elongated casing (15) having an axially rearward end (15a) and an axially forward ...

A down-the-hole drill hammer is provided that includes a housing, a solid core piston mounted within the housing, a seal located between the solid core piston and the ...

Definitions This invention relates to a down the hole drill and more particularly to the pneumatically operated

Down-the-hole drill piston assembly

hammer assembly for drills of this kind. a down the hole drill comprising a piston and ...

A down the hole drilling assembly comprising a drill tube adapter, an elongate casing, a fluid powered piston, a top working chamber, a bottom working chamber, a top sub and an exhaust ...

The present disclosure relates to a down-the-hole drilling assembly (11) actuated by a pressure fluid. An elongated housing (15), the elongated housing (15) having an axially rearward end ...

Introduction General info The down-the-hole hammer is a percussion hammer drill. The hammer works down the hole at the end of the drill string, where the impact piston strikes the drill bit ...

The invention provides a down-the-hole drill assembly having exhaust passages from upper and lower chambers past the inner end of a bit and through the body of the bit to exit through the ...

DTH hole openers are used to enlarge the size of a pilot hole most commonly used in industrial applications. Benefits of drilling a smaller pilot hole are: The ...

Drilling down - Drill hammer pistons Down-the-hole (DTH) drill hammers are used extensively in drilling applications for hard rock mining and exploration. The hammer is situated behind the ...

Rockmore International manufactures the finest and most efficient Down-the-Hole (DTH) hammers and bits for the mining, construction & water well industries.

LUBRICATION It is extremely important that you provide the DTH Hammer with a constant supply of good quality rock drill oil. This provides an air seal to reduce friction and prevent galling, ...

RC Down Hole Hammers come in all sizes-for exploration or large holes. Holte's bolt-together design permits rotation in both directions (to get unstuck). Easy ...

A down the hole drilling assembly having an elongate casing, a fluid powered piston, top and bottom working chambers, a plurality of fluid passages and an exhaust system wherein the ...

The RH560 DTH hammer is a robust and reliable addition to your mining and long-hole production drilling operations. It drills fast and lowers your drilling cost per hole. The RH510 hammer, with ...

A down-the-hole drill, usually called DTH Drilling Rig, is basically a mini jackhammer screwed on the bottom of a drill string. The speedy hammer ...

Down-the-hole drill comprising a housing (1), a hammer piston (6) movable to-and-fro in the housing and intended for impacting a drill bit (5). A back piece (3) provided with an extension ...

Down-the-hole drill piston assembly

Center Rock offers the most complete line of dth hammers, drills, and bits which are designed for peak performance in all rock drilling applications.
