To open or close the chuck, hold the hand grip and press the trigger switch. Trigger switch: Hold down to start the drill. Torque control: Adjust to change the torque, aka drilling power. Still's favorite drills are made by DeWalt (which also happens to be the brand we use in the HB workroom). "They're easy to use and last a long time," she says. Your drill should come with a rechargeable battery, a plug-in charger, and, of course, the drill itself.
