

Engineering Drilling Rig Professional Video Tutorial

What rig is used in the video?

The rig used in the video is one of the most advanced land rigs in the industry with top drive, Iron Roughneck™, and automated catwalk. The drilling portion of the video is followed by well completion. The video shows both the surface and animated-downhole process for multi-stage hydraulic fracturing.

What can I learn about drilling in 2 hours?

There is nowhere else that you can learn more about drilling in 2 hours! It is a must-see for anyone working in or with the oil and gas industry. (see the trailer and video segments below) The video begins with a brief discussion of wellsite selection and planning, followed by site preparation and rig mobilization.

What is a drilling engineering course?

This one-day intensive online course offers a thorough introduction to the fundamental principles and practices of drilling engineering. Designed for professionals and students in the oil and gas industry, the course covers essential topics including drilling rigs and equipment, well planning and design, drilling fluids, and safety measures.

What types of drilling rigs are available?

The drilling videos featured here on our website showcase the capabilities of various types of drilling rigs, including water well drilling, auger drilling, core drilling, and more.

What are the different types of drilling rigs offered by Simco?

With a focus on the specific processes involved in geothermal drilling, geotechnical drilling, and water well drilling, these drilling videos enable you to see the differences between the various drilling rigs offered by SIMCO. A variety of geothermal drilling videos allow you to view Air Rotary DTH Hammer and Mud Rotary drilling.

What does a driller do?

He was also responsible for overseeing the training and development of drilling personnel, and played a key role in developing the company's safety culture. He was responsible for managing several aspects of the company's drilling operations, including drilling strategy, rig selection, and personnel management.
