Who is Bridger drilling?

Expert drilling services for the geotechnical and environmental engineering community. Bridger Drilling provides fast quotes, efficient mobilizations throughout the Southeast, real-time data and exceptional service. Our team of professional drillers operates a diverse fleet of CPT, ATV, Track- and Truck-mounted rigs for all conditions.

Who makes environmental drilling rigs?

Environmental Drilling - Simcohas over 38 years of experience designing and building environmental drilling rigs and geotechnical drilling rigs and equipment.

Can a drill rig push the boundaries of autonomous mining?

An Australian project showcases how two experts are working together to develop a drill rig that pushes the boundaries of autonomous mining. We've entered Nick Howlett's sandpit. That's what it feels like, anyway. It's deep in the Outback, 1,500km north of Perth.

What does a drill rig look like?

At its test site, the rig looks similar to a manually operated drill but features lidar and cameras on the machine's front, back and top. There are also automation mode ("safe-to-board") lights for transitioning from remote to local operations.

Is the smartroc D65 a good rig for pre-split drilling?

The SmartROC D65 Autonomous has also had an edge in pre-split drilling. At Iron Bridge, operators drill up to 30m at an angle, meaning it's relatively easy for unintended deviations in holes. The autonomous rig has been more precise in these scenarios, making for better drilling predictions and, in turn, easier drill plan adjustments.

Could iron bridge test a smartroc D65 autonomous rig?

But Iron Bridge presents other opportunities to put this new test version of the SmartROC D65 Autonomous through its paces. The magnetite is buried in hard rock beneath metres of looser clay-like soil and then transitional earth, meaning the rig is drilling under various conditions. "We want that," says Howlett, an Epiroc Automation Specialist.

Small Borehole Engineering Rotary Drilling Rig for Building/Bridge/Railway Construction, Find Details and Price about Drilling Rig Rotary Drilling Rig from Small Borehole Engineering ...

Drilling rig engineers oversee the planning and management of oil-rig drilling operations for petroleum companies. They are responsible for ...

1 hour ago; US firm unveils compact water-jet rig to slash geothermal drilling costs by 80% The startup's compact drill cuts geothermal drilling expenses, opening the door to wider adoption.

The document describes methods for conducting a detailed geotechnical investigation of bridge sites. Key methods include test pits, boring using rotary or percussion drilling, standard ...

China Crawler Hydraulic Engineering Piling Rotary Drilling Rig for Bridge/Building Foundation Construction, Find Details and Price about Engineering Drilling Rig Rotary Drilling Rig from ...

I am doing an evaluation of the existing rail steel bridge for drilling rig movement. Because it is required to cross the bridge and do some secant drilling for the shoring wall. The ...

Shandong Yahe Construction Machinery has been at the forefront of developing and enhancing rotary drilling rigs for numerous years, proudly holding the CE ...

What Is a Drilling Rig? A drilling rig is a complex piece of equipment used to drill holes into the ground for various purposes. Depending on the application, ...

1.The rotary drilling rig is suitable for construction machinery for piling foundation works. 2.The borehole diameter is 450-1600 mm, and the borehole depth can reach 20 meters. 3 is mainly ...

The high-torque rotator (up to 2340kgm or 16850 ft.lb torque) make it suitable for micropile and DTH drilling application. With the optional feature, 'side swing device', the rig will have some ...

Discover the global landscape of engineering drilling rigs by exploring the top 10 market leaders driving innovation, efficiency, and sustainable practices. This detailed guide spotlights the ...

Explore drilling techniques for tunnels and bridge support systems, ensuring stability, safety, and durability for infrastructure projects.

Tri-State Drilling Technologies, Inc. (T.S.D.T.) is a family-owned and operated Environmental and Geotechnical drilling company that has been proudly serving clients for over 30 years. ...
