

Engineering drilling rigs and tunneling equipment

Hydraulic Tunnel Drill Rig is widely used in the tunnel anchor, tunnel drilling, vertical well drilling and pile hole (pipe roof) in road, railway, and subway. (1) ...

How Drilling Machines Maintain Safety in Tunnelling: Tunnel construction is an extremely risky process. The workers are in a closed space ...

With a complete range of equipment and tools, services and technical solutions, we help the mining and infrastructure industries increase efficiency, cut costs ...

Equipped with a unique ring gear system, our tunneling rigs offer a 180° rotation of the mast, enabling precise angle adjustments. This advanced design feature enhances the equipment's ...

Tunneling Drilling Rig Tunneling Drilling Rig (Underground One-boom Face Drilling Rig) offer you the best solution for your application. As an industry manufacturer with its own underground ...

Tunnel drilling rig (tunnel anchor drilling rig) is an engineering machinery equipment for tunnel work developed according to the new situation of modern tunnel construction.

How Drilling Machines Maintain Safety in Tunnelling: Tunnel construction is an extremely risky process. The workers are in a closed space in narrow places with poor ...

Hydraulic Tunneling Drilling Rig Machinery Rotary Borehole Underground Jumbo Drilling Rigs, Find Details and Price about Hydraulic Tunneling Drilling Drilling ...

Civil engineering nowadays plays an essential role in building our infrastructure and the environment. Drilling and tunneling techniques are ...

Introduction Tunneling is a complex and challenging engineering feat that requires specialized equipment and expertise. From urban subway systems to hydroelectric projects, tunnels serve ...

T.S.D.T. maintains a wide range of specialized equipment, including Truck-Mounted Drill Rigs, a Trailered GeoProbe Unit, a Narrow (35") Track Mounted GeoProbe for indoor access, and a ...

Explore the top 27 drilling and boring machine companies shaping the industry. Companies like Herrenknecht cater to infrastructure projects whilst Robbins ...

Engineering drilling rigs and tunneling equipment

Rock splitters for non explosives methods of rock breaking Grout Pump, shotcrete machines and rockbolts for rock/soil stabilization. We also provide rental ...

Herrenknecht AG (joint venture with China Railway Engineering Equipment Group Co., Ltd.) is a leading global manufacturer of tunnel boring machines and drilling rigs.

Jumbo tunnelling drilling rig is designed for drilling vertical, inclined and horizontal blast holes, which is specially designed for low roadway, and widely used in ...

China Engineering Drilling Rig, Mine Drilling Rig, Concrete Machinery, offered by China manufacturer & supplier -Sichuan Lanhai Intelligent Equipment Manufacturing Co., Ltd., page 1

Hanfa Group underground tunneling series of drilling RIGS are widely used for underground mining, small tunnel tunneling and bolt hole reinforcement projects. Their well-designed shape, ...

OWI Drilling Rig Equipment From our headquarters in the Permian Basin, Titan Engineering supplies, Inc. is a worldwide provider of new and rebuilt drilling rig equipment. We offer total rig ...

Also included are tunnel design, engineering, construction, and servicing specialists, as well as spare parts suppliers for tunnel drilling machines and related equipment.

Amalgamated Mining Group is a global mining, tunnel drilling equipment, and repair company based in Edmonton, Alberta with over 20 years of experience.

Company mission: Project solutions for underground construction and horizontal directional drilling Repairing gas pumping and pipeline equipment Designing tunnel boring machines and ...

Explore the capabilities and applications of tunnel drilling machines, including Tunnel Boring Machines, Roadheaders, Drill and Blast Rigs, Raise Borers, and Microtunneling ...

As a key equipment in the field of geotechnical engineering, the technology development of tunnel anchor drilling rigs has experienced iterations from simple machinery to ...

Drilling rig is a heavy mechanical equipment used for drilling strata, mining resources or conducting geological surveys. Whether it is oil and gas extraction, water well ...

At Casagrande, we provide piling rigs, crawler drills for micropiling, anchoring, and jet grouting, diaphragm wall equipment, and tunnel consolidation solutions ...

Explore drilling techniques for tunnels and bridge support systems, ensuring stability, safety, and durability

Engineering drilling rigs and tunneling equipment

for infrastructure projects.

Our cutting-edge equipment combines innovative technology, robust construction, and precise engineering to ensure reliable and precise drilling in even the ...

This includes various drilling equipment such as pneumatic, hydraulic, borehole, and exploration equipment. The products exhibit excellent ...
