

Epiroc T40 down-the-hole drill rig

This rig is built with the operator in mind. It features an ergonomic user interface to make drilling safer, faster and more effective. The SmartROC T40 is easy to operate and highly productive. ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

The Epiroc FlexiROC T40 Drilling Rig is a versatile and high-performance top-hammer drill rig, designed to excel in demanding construction and medium ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling.

SmartROC rigs can be equipped with a hole navigation system (HNS) as an option, enabling drill pattern navigation via GNSS receivers. HNS manages hole position, inclination, correct aiming ...

FlexiROC T35 and FlexiROC T40 are flexible and versatile top-hammer drill rigs, developed and designed for high performance in demanding construction ...

Epiroc SmartROC T40 Drill Rig drilled 100 meters in less than two hours (1 h 53 min) with excellent hole quality with 90 % hole straightness while only ...

The FlexiROC T40 R is developed and designed to deliver high performance in demanding construction applications. It is a very efficient alternative for small and medium size quarrying ...

Specifically designed to production drilling to a depth of 54 meters in both rotary and down the hole hammer applications the Epiroc DML is a drilling industry ...

FlexiROC T40 is a flexible and versatile top-hammer drill rig, developed and designed for high performance in demanding construction applications. It's also a very efficient alternative for ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

About Vertical Drills Vertical drills, often referred to as "top hammer drills," "rotary drills," or "rock drills," are versatile machines used for a wide range of construction, mining, ...

PowerROC D60, a hydraulic down-the-hole drill rig, perfectly meets the needs of open-pit mines and quarries

Epiroc T40 down-the-hole drill rig

when it comes to drilling big holes. With the well ...

The SmartROC T45 boosts productivity, reduces fuel costs and provides you with valuable data to help keep you on top of your business. Furthermore, clever Smart options and features such ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and blast hole drilling in mining ...

The Epiroc SmartROC T40 surface drill rig can leave competitors in the proverbial dust, using 70 per cent fewer fittings and half as many hoses.

Surface drill rigs are used for blast hole drilling in construction, quarrying, and open-pit mining, covering a hole range between 27-229 mm. We offer the widest range of surface drilling ...

+ A rig you can rely on - shift after shift SmartROC rigs from Epiroc work consistently and effectively even in the most demanding conditions. Air capacity is the most important factor ...

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the ...
