

Full specification table of down-the-hole drill rigs

The new efficient SmartROC D65 All these features and flexibility are consistently delivers high-quality blast packed in a rig which is economical holes with accuracy and precision. to run due ...

Of these rigs, the rotary drill rig is widely used for geotechnical engineering investigations, whereas churn and percussion rigs are used more extensively for drilling water wells and for ...

Main features: Full drill cycle automation o ROPS and FOPS approved cabin Hole Navigation System, option o Hydraulic cylinder operated feed system Documentation by IREDES o ...

When it comes to drilling, Down-the-Hole (DTH) drilling tools have revolutionized the industry. But what exactly is DTH drilling? How does it differ from rotary ...

AirROC D50, 105 - 140 mm Features and technical information The AirROC T35/ D45/ D50 are high-powered, down the hole pneumatic drill rigs with exceptional mobility and performance. ...

Down-the-Hole (DTH) drilling is a technique used to create deep, precise holes in hard rock and challenging ground conditions. In this method, ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw compression system and ...

The need for adequate hole cleaning cannot be emphasized enough A hole that is not cleaned properly can result in poor per-formance, rapid wear of bits and accessories and in some ...

Sandvik DR412iE blasthole drill enhances rotary and DTH drilling performance, maximizing returns. It features scalable automation, from onboard systems to full autonomy, adapting to ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

Specifications for drilling rigs include table opening, pull-up, top head travel, and lift capacity. Drilling rigs are equipped with pumps that dispense drilling fluid or ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

Full specification table of down-the-hole drill rigs

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the added intelligence of this market-leading drill rig.

Explore the most comprehensive line of surface rotary and DTH blast hole drilling rigs in the industry, with a multitude of configurations to choose from and ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the ...

The DTH drilling rig (down-the-hole) is a highly efficient rock drilling equipment used in open-pit mines, stonework projects, road construction, and other scenarios. It is also called a shallow ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Isn't it time you gave your operation the chance to profit from the added intelligence of the ...

Explore TechCom's range of Down-the-Hole (DTH) hammer drilling rigs from world-leading manufacturers Epiroc and Sandvik. Reliable, efficient drilling solutions designed for open-pit ...

When it comes to drilling, Down-the-Hole (DTH) drilling tools have revolutionized the industry. But what exactly is DTH drilling? How does it differ from rotary drilling? And what are the unique ...

The DCRL130, from Furukawa FRD, is an environmentally friendly & compliant rock drill that is proven, reliable & high-performing while conforming to market ...

The drilling rig equipment is a mobile self-contained hydraulic crawler drill designed for blast-hole drilling in the mining, quarry and construction industries.

The drilling rig is equipped with the crawler leveling function, which makes the center of gravity of the drilling rig more stable up and down the slope, and the ...

Our intelligent surface drill rigs bring the latest technology to surface mining applications. Designed to work in the toughest operating conditions, our ...

are matched to over-all rig capacity. The single motor worm-gear head is rugged and compact for down-the-hole (DTH/ DHD) drilling with air and foam. Its floating spindle absorbs drilling ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to

Full specification table of down-the-hole drill rigs

break rock instead of excavating it. ...

Power and productivity ROC L625 and L630 are high-capacity down-the-hole crawler drills primarily designed for quarry blast hole drilling in virtually all types of rock formations for ...

DTH drill bits are rotary - PERCUSSIVE tools with the emphasis on PERCUSSIVE. Their function is to fracture the material being drilled which should then be immediately carried away by the ...

Choosing the Right DTH Drilling Rig When selecting a DTH drilling rig, consider: Hole diameter and depth
Type of terrain and rock Compressor capacity Mobility (truck ...
