

Fully automatic rock drill programming video

What is a drill rod handling system?

A part of an automated rod handling system that allows to pick up drill rods automatically after the desired drilling depth is reached. Increases productivity and safety, and reduces the stress on rock drilling tools and the entire machine. Standard on all SmartROC rigs with DTH and COPROD drilling method.

What is a KDP drill system?

Built-to-order automatic drill systems. Customized to work the way you need them to. Ideal for aluminum, steel and composites, tubular and flat bar materials, the Kentucky Gauge KDP series of drilling systems will increase your efficiency in producing high quality parts in an efficient and lean manner.

Can robotic rigs optimize drilling?

Jason Gahr, Operations Manager for Unconventional Drilling at ExxonMobil, said: "ExxonMobil's collaboration with Nabors in deploying this automated rig in Midland demonstrates the ability to optimize drilling using the combined power of robotics, automation, computing, and data.

Why should you choose smartroc for your surface drill rig?

With our SmartROC product line, we offer surface drill rig solutions which have the potential to increase profitability throughout your entire operation. RCS platform is the core for onboard automation solutions for surface drill rigs. Since 1998 it is a well-proven solution for safer and more effective operations, and for higher productivity.

Why should you use a smartroc rig?

An automated rod handling system, which allows to add drill rods manually or automatically to reach the desired depth. The solution supports sustainable and consistent operations, increases average productivity and effective life of rock drilling tools, provides more comfort for an operator. Standard on all SmartROC rigs.

An automatic drilling machine is a specialized piece of equipment designed to automate the drilling process, significantly reducing manual intervention. Unlike traditional drilling machines ...

KDP - Automatic Drilling System Built-to-order automatic drill systems. Customized to work the way you need them to. Ideal for aluminum, steel and ...

Watch a walkaround video tour of the new MD6380 Cat Drill. Designed for large bore hole production drilling, Caterpillar's latest ultra-class drill provides the optimal mix of on-board air, feed ...

The i-Class platform offers various levels of automation for rock support drilling as well as a large component commonality through the 400i drill range. This highly instrumented equipment ...

Fully automatic rock drill programming video

DTH drill bit processing Reliable Rock Drilling Tools Manufacturer If you are struggling to find the right rock drilling tools for your application, contact our experts and they are happy to help.

Thanks to the partnership between Epiroc and Newmont Goldcorp, the world's first fully autonomous SmartROC D65 surface drill rig is now in production.

PRAKASH-P40NC - Fully Automatic Drilling Machine Powered By MITSUBISHI Japan Controller Fully Auto Cycle Multi Operation (Multi Tool Offset) Easy Interface Smart Monitoring Rapid Speed Feed Stop ...

Auto Positioning of the Feed This smart feature works as semi-automatic aligning of a rig feed, it reduces time and improves accuracy of rig positioning. ...

In this episode of Minecraft Survival, I gather resources and build an automatic mining drill using the Create Mod to dig a massive shaft to bedrock! This fully automated miner makes resource ...
