

German screw air compressor store

What is a screw compressor?

A screw compressor is an air compressor that compresses air through the interaction of rotating screws. This mechanism enables the efficient generation of compressed air for a wide range of industrial applications. How do screw compressors work? A screw compressor consists of two parallel, intermeshing screws, one stationary and one rotating.

What is a FAS rotary screw compressor?

FAS is a complete range of air cooled single stage rotary screw compressors starting from 3kW up to 90kW. The compressors are designed for heavy duty industrial use and prove their strength when running continuously. The compressors are equipped with IE3 high efficient main motors which guarantee a very economical operation.

Who makes rotorcomp air compressors?

ROTORCOMP is a prominent OEM supplier of screw compressors for air and gas, offering a comprehensive range that includes oil-injected screw compressor blocks and compact units. Their product portfolio spans a power range from 2.2 to 670 kW, making them a key player in the air compressor market.

Where are Renner compressors made?

This not only applies to our area of expertise, screw compressors, but also to piston compressors and oil-free compressed air - made in Germany. Whether frequency-controlled, with refrigeration dryer, mounted on an air receiver or as a complete compressed air station: energy efficiency is a matter of course at RENNER.

Who is alup Compressors GmbH?

ALUP quickly made a name for itself as a manufacturer of car air pumps. ALUP Compressors GmbH now offers its customers much more. ALUP is internationally known for its efficient compressed air systems, which are optimally tailored to the needs of individual customers.

What is a direct drive screw compressor?

BERG's direct drive screw compressors deliver outstanding performance and make possible great savings in energy. The drive motor and the air end in one-to-one drive series compressors are designed to operate at the same low speed.
