Who is YG drilling equipment?

YG drilling Equipment factory was founded in 2003. YG Machinery integrates R&D, production and sales after 18 years of development. We have a series of drilling rig suitable for different engineering projects. YG Machinery is a team of over 100 people. Our sales manager will solve your pre-sales problems online 24/7.

Who is YG machinery?

More different rigs & details, contact us! YG Machinery specializes in research and development of machinery, covering an area of 8,000m<sup>2</sup>, with a mature drilling rig research and development team and sales team. We can provide the most suitable solutions for drilling rigs and related accessories according to your needs.

What is a blasthole rock drilling rig used for?

Applicable to: The main drilling object is rock formation, large-diameter blasthole rock drilling operations in small and medium-sized mines, road construction, water conservancy and stonework engineering, as well as drilling bolts in slope support, tunnel support, and foundation pit support.
