

How about the rock drill of Taide Company

Who invented the Rock Drill?

In 1851 Fowle patented a new design that was the seed of the modern rock drill. It was the first to use a flexible hose that made the drill independent from the boiler, and it later pioneered the use of compressed air for power transmission.

How does a Tei rock drill pipe handler work?

This innovative TEI Rock Drill pipe handler attaches easily and quickly to the excavator stick and auxiliary hydraulics on most 8 ton and larger excavators. It can grasp '5-10' length of drill pipe and casing together and fully position them over the drill rig.

When was study for Rock Drill made?

Study for Rock Drill (c. 1913) is a 67.5 cm (26.6 in) x 42.5 cm (16.7 in) charcoal drawing by Epstein which is part of The Garman Ryan Collection at The New Art Gallery Walsall. Whilst the exact date of the sketch is unknown, because it is a preparatory study for Epstein's full sculpture Rock Drill, it has been dated to 1913.

What were the different types of hard-rock drilling?

In the hand-labor era, which lasted right up to early in this century, there were two kinds of hard-rock drilling: slow and slower, depending on whether it was done by a team of men or by one man working alone. One man swinging a four-pound hammer and holding his own drill rod was called single-jacking. A two-man team was called double-jacking.

What is study for Rock Drill?

Here is the armed sinister figure of to-day and to-morrow. No humanity, only the terrible Frankenstein's monster we have made ourselves into. Study for Rock Drill (c. 1913) is a 67.5 cm (26.6 in) x 42.5 cm (16.7 in) charcoal drawing by Epstein which is part of The Garman Ryan Collection at The New Art Gallery Walsall.

How long does it take to drill a rock tunnel?

In average rock one man might drill 8 inches an hour, while a two-man crew might make 2 feet. It would take 20 to 30 holes, 1 to 1 1/2 inches in diameter, to be able to blast away enough rock to advance a 4-by-6-foot tunnel 4 feet. Drilling those 120 feet of hole might use up 200 pieces of sharpened drill rod over several days.
