What is a down-the-hole drill?

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the bottom of a drill string. The fast hammer action breaks hard rock into small cuttings and dust that are evacuated by a fluid (air, water or drilling mud). The DTH hammer is one of the fastest ways to drill hard rock.

What equipment is used in down-the-hole (DTH) drilling?

Different types of equipment used in Down-the-Hole (DTH) Drilling DTH Drill Rig: The DTH drill rig is a powerful, mobile machine that serves as the core equipment for DTH drilling operations. It is equipped with the necessary power to operate the DTH hammer and drill bits.

What is down-the-hole (DTH) drilling?

Down-the-hole (DTH) drilling has made it easier for contractors to drill wells faster and more efficiently, and to transition from dirt boring to rock boring just by adding a compressor and hammer to the drill bit.

Are DTH drills better than top hammer drills?

When comparing top hammer drilling vs. down the hole drilling, it's clear that DTH drills have the upper hand in terms of efficiency and speed. While top hammer drills rely on a percussive force from above, DTH drills deliver their impact directly at the bottom of the hole, resulting in faster and more accurate drilling.

What is down the hole hammer drilling?

Down the hole hammer drilling also offers the advantage of faster penetration rates, allowing for quicker completion of drilling projects. This increased speed can lead to significant cost savings for companies, as less time spent on drilling means reduced labor costs and improved overall efficiency.

How was a hole drilled?

This system could not guarantee a finished hole size and only pure vertical holes could be drilled as the system basically relied on gravity. Debris from the hole was baled out using a baling tube with a clack valve, which was periodically dropped on a winch to capture the slurry, which was then brought to the top of the hole to be discharged.

Find your down-the-hole drilling rig easily amongst the 102 products from the leading brands (Hengwang, Furukawa, Comacchio, ...) on DirectIndustry, the industry specialist for your ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...
