

# How to make a water well drilling rig video

How to build a water well Rig?

**Frame:** The first step is to build a sturdy frame that will support the drilling rig. This can be done using metal pipes or wooden beams. The frame should be strong enough to withstand the drilling process and provide stability. **Drill Bit:** The most important tool for drilling a water well is the drill bit.

How does a water drill rig work?

Water drill rigs use a combination of high volume varied pressure air, water and drilling mud to expel cuttings, unless want to withdraw the drill at regular intervals not much else will function and will wedge drill head in bore hole in short order. Cable tool rigs do not use a medium to flush the well. They bail out the cuttings as required.

What rig do you use to drill a water well?

My Father and Grandfather used to drill water wells with a "Baptist" type rig. It was slow compared to a rotary but very simple and cheap to make. They could probably go down to four hundred feet or so. It doesn't require large horse power or a water pump to circulate.

How do you drill a water well?

It is somewhat similar to the rotary bit method which most real water well drillers use for water bore drilling. The DIY technique involves water pumped down the center of a PVC schedule 40 pipe used as both a drill stem and a drill bit. At the bottom end of the PVC pipe a "drill bit" is fashioned by cutting teeth into the end of the PVC pipe.

Can you drill your own shallow water well?

You can drill your own shallow water well using PVC and household water hoses. It is a cheap and effective way to dig your own shallow water well. Water well drilling isn't just for the pros with huge commercial drilling rigs. Digging a water well yourself is both interesting and fun.

How much does it cost to drill a well?

For irrigation and lawn watering, reaching an aquifer isn't necessary. You only have to drill under the standing water level. It is very likely that you can drill your own well. Many successful wells have been drilled using this well drilling method. It is cheap. You can expect the "drilling" portion of the project to cost about \$200.
