

How to use the Ark water well drilling rig video

How do you fill a water well in Ark Survival Evolved?

The Water Well is a structure in the Scorched Earth -DLC of ARK: Survival Evolved. Water Wells need to be placed on top of Water Veins that can be found throughout the Scorched Earth map. Doing so will slowly fill up the well with water. The well can hold up to 1000 water units and will automatically refill if water is consumed from it.

Who is Ark drilling?
