

Hydraulic down-the-hole drill rig Kaishan KG9 parameters

Brief info: Kaishan brand KG9 Integrated Down the hole Drill Rig for mining, US \$ 95,000 - 120,000 / Set, New, 1 year, Video technical support, Online support, Field maintenance and ...

KSQ31 hydraulic DTH drilling rig is used for blast hole and drilling anchor hole, it can operate in the section with 3.2-8m width and 3.2-5m height. the drill boom ...

Product Features The Kaishan KT15 high pressure integrated drilling rig is specially designed as a high efficiency mining machine for large scale open-pit ...

The KG610H down the hole drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable. Brief ...

KG430 Down The Hole Drill Rig KG430 folding frame track and four wheel drive are adopted; Add track leveling cylinders and the plunger piston tramming motor improves the working pressure ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast ...

The KG726III/KG726HIII dth drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable.

The KT20S Integrated Dual-power Down the hole Drill Rig for Open Use is a large drilling machine suitable for heavy duty operations.

The KG9 down the hole drill rig is designed for open pit mines and quarries for drilling holes with a diameter of 105-152mm in vertical, inclined, and horizontal orientation. This equipment is ...

The KT8C integrated down the hole drill rig is a highly advanced piece of equipment that delivers outstanding power and energy-saving performance. The drilling device is particularly suited to ...

The KT11 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive the ...

The KT7C high air-pressure down the hole drill rig for open use is an advanced drilling device integrating a down the hole drilling system and screw air compression system.

Hydraulic down-the-hole drill rig Kaishan KG9 parameters

The KT20S integrated dual-power down the hole drill rig for open use is a heavy duty piece of drilling equipment developed by our company. It is fully equipped to meet the needs of large ...

KSQ31 hydraulic DTH drilling rig is used for blast hole and drilling anchor hole, it can operate in the section with 3.2-8m width and 3.2-5m height. the drill boom can be rotary 360°; it can drill in ...

The KG610H down the hole drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable. Brief Parameters Drilling diameter 105 ...

Hydraulic Top Hammer Drilling Rig KL510 top hammer drilling rig is equipped with standard drill rod of 45/38mm diameter to drill vertical, inclined and horizontal ...

Product Description KG9 surface DTH drilling rig is hydraulically driven to perform travelling, propelling, rotation and angle adjustment with strong power; relying on high pressure ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system, characterized by compact ...

The KG9 down the hole drill rig is designed for open pit mines and quarries for drilling holes with a diameter of 105-152mm in vertical, inclined, and horizontal orientation.

KG9 surface DTH drilling rig is hydraulically driven to perform travelling, propelling, rotation and angle adjustment with strong power; relying on high ...

The KG920BIII/KG920BHIII down the hole drill rig for open use is an improved device in compliance with national regulations on environmental protection.

Product Description KG310/KG310H is an improved DTH drilling rig as the national requirements of environmental protection, it is designed and developed based on KG915/KGH3 platform, it is ...

The KG410/KG410H down the hole drill rig is particularly suited for operation in open pit mines and stone quarries. It comes equipped with a Yuchai four-cylinder engine (China III) and ...

The KG520/KG520H down the hole drill rig is designed for large and medium-sized quarries and contractors. The drill rig features a folding frame track and ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

KG520 Down The Hole Drill Rig KG520 folding frame track and four wheel drive are adopted; Add track

Hydraulic down-the-hole drill rig Kaishan KG9 parameters

leveling cylinders and the plunger piston tramming motor improves the working pressure ...

The Kaishan KT15 high pressure integrated drilling rig is specially designed as a high efficiency mining machine for large scale open-pit mines based on our years of experience designing ...

KG920 Down The Hole Drill Rig KG920 expanded pitch and lifting arm hydraulic cylinder enable it to meet the requirements of limiting position use. Meanwhile, the hydraulic system is ...

The KG9 down the hole drill rig is designed for open pit mines and quarries for drilling holes with a diameter of \varnothing 105-152mm in vertical, inclined, and horizontal orientation.

Down the hole drilling rig has a hydraulic wet dust removal system with adjustable water volume and water pressure, and water pressure alarm function. The rig ...

Kaishan KT11 integrated surface DTH drilling rig drives both the hydraulic system and high pressure screw compression system with a power and has function modules, including auto ...

Categories: All Products, Kaishan Drilling Rigs, Rock Drilling Tools Description: Kaishan KG Series Portable Borehole Hard Rock Drill Rig with Hole Hammer DTH Mining Drilling Machine ...
