

The Sandvik HL1560T hydraulic rock drill is designed for surface long-hole drilling of holes between 89-152 mm in diameter. It is powered by a 33 kW hydraulic ...

The RD927L is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side bolts; ...

TECHNICAL SPECIFICATION Sandvik HEX1 hydraulic rock drill is designed for a maximum recommended diameter of 45 mm. Typical application is foundation drilling, road cutting, ...

SANDVIK HL300 ROCK DRILL TECHNICAL SPECIFICATION Sandvik HL300 hydraulic rock drill is designed for long- TECHNICAL DATA hole production drilling on surface and rock bolting in ...

This happens several thousand times per minute in some cases and is much more effective than electric drills or core drills in rock and concrete. There are many things to consider when ...

Sandvik HF820T is a heavy hydraulic percussive rock drill with independent rotation and separate flushing. High drilling capacity and reliability are enabled by functional modules. Sandvik ...

TECHNICAL SPECIFICATION Sandvik DT821 is a two-boom electro hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling system ...

The SANDVIK HL1060T hydraulic rock drill is designed for surface longhole drilling of 89-152 mm diameter holes. It is a heavy hydraulic percussive rock drill with independent rotation and ...

The Sandvik RDX5 is a robust hydraulic rock drill designed for face and long hole drilling as well as rock bolting. It is known for its exceptional durability ...

The SANDVIK HL1060T hydraulic rock drill is designed for surface longhole drilling of 89-152 mm diameter holes. It is a heavy hydraulic percussive rock ...

The Sandvik RD1840C is a hydraulic rock drill for surface long-hole drilling of holes between 140-178mm. It is equipped with a stabilizer to control contact ...

The Sandvik DT821-C is a two-boom electro-hydraulic jumbo designed for efficient drilling in tunneling and cavern excavation, featuring advanced ...

TECHNICAL SPECIFICATION Sandvik HL300 hydraulic rock drill is designed for long-hole production

Hydraulic rock drill English

drilling on surface and rock bolting in hard rock bolting in underground hard rock ...

Sandvik HL510 S/F is a compact, robust and universal Hole diameter long hole drilling 48 - 64 mm hydraulic rock drill. It is known of its hydraulic efficiency ...

Sandvik HL1560ST is a hydraulic top hammer rock drill TECHNICAL DATA designed for DL411 and DL421 underground longhole Hole diameter range 89 ...

Sandvik RD314 is a compact, robust and universal hydraulic percussive rock drill. It is known for its hydraulic efficiency and high penetration rate. Sandvik RD314 has excellent serviceability ...

Underground Rock Drills Our range of surface rock drills is ready to tackle any job: horizontal or vertical, light or heavy. Our light pneumatic rock drill can drill ...

The HL710S hydraulic rock drill is designed to ensure high drilling capacity, easy maintenance and low operating cost. The construction of the rock drill is based on the main body modules ...

Sandvik HL1560T is a heavy hydraulic percussive rock drill with independent rotation and separate flushing, which ensures high reliability. It is equipped with hydraulic actuator ...

The HYCON HRD28X is a high performing handheld hydraulic rock drill designed for the toughest drilling applications in granite and concrete up to 6 meters of drilling depths. Using standard ...

Sandvik HL510 S/F is a compact, robust and universal hydraulic rock drill. It is known of its hydraulic efficiency and high penetration rate. Sandvik HL510 S/F has excellent serviceability ...

Sandvik HL1560ST is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with ...

Hydraulic rock drills offer high drilling speeds with minimal vibration, ensuring effective penetration in hard rock or reinforced concrete. They are lightweight ...

Furukawa FRD is the industry leader in innovative technologies for rock drills, blasthole drills, hydraulic rock breakers & breaking attachments for ...

TECHNICAL SPECIFICATION Sandvik RD106 hydraulic rock drill is designed for a maximum recommended hole diameter of 45 mm. Typical applications are foundation drilling, road ...

The hydraulic rock drill is an efficient rock-breaking tool widely used in mining, tunnel excavation, and construction engineering. Powered by a hydraulic system, it achieves rock fragmentation ...

Hydraulic rock drill English

The RD921S is a heavy-duty hydraulic rock drill designed for medium diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side ...

DH204 is a hydraulic rock drill which is an only-one tool in the world with a built-in air compressor. No need of air or water from the outside. Dimensions ...

The Rilon hydraulic rock drill and splitter attachments are innovative machines designed to perform rock excavation and crushing operations more efficiently ...
