What is a water well drilling rig machine?

Water well drilling rig machine is a specialized piece of equipment designed to bore holes into the ground to access groundwater. These rigs come in a wide range of sizes and configurations, each tailored to specific drilling requirements and geological conditions.

Who is Jinfan drilling rig manufacturer?

JINFAN is Chinadrilling rig manufacturer, offer hydraulic crawler drilling rig, anchor drill rig, water well drilling rig, core drilling rig, in addition to drilling tools such as DTH hammer, eccentric casing bit and wire-line core barrel.

Which water drilling rig is right for You?

Whether you require the powerful SIMCO 7000 for high efficiency and fast water well drilling, geothermal wells, or the SIMCO 2800 for more compact engineering and easy maintenance, you'll find either water drilling rigs to perform at the top of its class and easily accomplish your drilling requirements.

What is a core drilling rig used for?

The core drilling rig is mainly used for general survey and exploration of metal and non-metal solid minerals; also used for engineering geological survey, hydrogeological survey, general survey and exploration of oil and gas fields, and water well drilling. One-to-one customized drilling rig, unique design and unique fit for you.

Where is Jinfan drilling equipment company located?

Add.: No. 221, Xi Tai Road, Mei Cun Industrial Zone, New District, Wuxi City, Jiangsu Province, P.R. China. JINFAN Drilling Equipment Company is a renowned drilling rig manufacturer and supplier in China.

How to choose a water well drilling rig?
