

# Kaishan down-the-hole drill rig parameters

The KG430/KG430H down the hole (DTH) drill rig is engineered for high efficiency open pit mining and stone quarrying use. The track drill features tramming and ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...

The KT7C high air-pressure down the hole drill rig for open use is an advanced drilling device integrating a down the hole drilling system and screw air compression system.

The KG310/KG310H down the hole drill rig for open use is an improved device in compliance with national regulations on environmental protection.

Kaishan dth drilling rigs is robust performance in hard rock, fuel efficiency, wide drilling range & versatility, and easy maintenance.

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

The KT9D integrated down the hole drill rig for open use is an advanced drilling device integrating the hole drilling system and screw air compressor system. It is capable of drilling ...

The Kaishan KT15 high pressure integrated drilling rig is specially designed as a high efficiency mining machine for large scale open-pit mines based on our years of experience designing ...

Kaishan KT11 dth drilling machine is designed for high-capacity rock drilling in quarries, opencast mines & rock excavation. Get a FREE quote now.

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for open use drilling operations. Equipped with a Yuchai four-cylinder engine, the drill ...

KT10 integrated down the hole drill rig The KT10 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive ...

Product Description Kaishan KT25 integrated surface DTH drilling rig is a new drilling device which is carefully designed for large open-pit mine based on our development and production ...

# Kaishan down-the-hole drill rig parameters

The KG520/KG520H down the hole drill rig for open use is an improved device in compliance with national regulations on diesel-engine emissions.

The KG420H down the hole drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable.

Kaishan KT7D integrated open-pit down-the-hole drilling rig is an advanced drilling equipment that integrates the down-the-hole drilling system and the ...

The KG410/KG410H down the hole drill rig is particularly suited for operation in open pit mines and stone quarries. It comes equipped with a Yuchai four-cylinder engine (China III) and ...

The ZT5 integrated down the hole drill rig for open use is a new drilling device developed by Kaishan Group after years of development and production of ...

The KG9 down the hold drill rig is designed for open pit mines and quarries for drilling holes with a diameter of  $\varnothing$ 105-152mm in vertical, inclined, and horizontal orientation.

The KG310/KG310H down the hole drill rig for open use comes equipped with a Yuchai double-cylinder engine (China III). The drill rig has been thoroughly tested and meets all relevant ...

The KG430S/KG430SH down the hole drill rig for open use is an improved device in compliance with national regulations on diesel-engine emissions.

The KG430H down the hole drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable.

The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of down the hole drill rig to meet the ...

The KG610H down-the-hole drill rig for open use is equipped with a dust collector, thus making the operation environment-friendly and reliable.

The KG520/KG520H down the hole drill rig is designed for large and medium-sized quarries and contractors. The drill rig features a folding frame track and ...

The G310/KG310H Down the hole Drill Rig for Open Use is a high powered and environmentally friendly oil drilling unit that operates with excellent efficiency.

The ZT10 integrated down the hole drill rig for open use is a new drilling device developed by Kaishan Group

# Kaishan down-the-hole drill rig parameters

after years of development and production of ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

Down The Hole Drill Rigs Kaishan Group Co., Ltd. is a well-equipped company with strong technical force, specialized in Water Well Drilling Rig, Screw air compressor, Surface Drill ...

ZT10 Integrated Down the hole Drill Rig for Open Use The ZT10 integrated down the hole drill rig for open use is an advanced piece of drilling equipment developed by Kaishan Group to meet ...

Kaishan KT11 integrated surface DTH drilling rig drives both the hydraulic system and high pressure screw compression system with a power and has function modules, including auto ...

Categories: All Products, Kaishan Drilling Rigs, Rock Drilling Tools Description: The KT11 integrated surface DTH drilling rig utilizes a single Cummins three-cylinder diesel engine with ...

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...
