How do I become a drilling engineer?

As the successful candidate, you will hold a bachelor's degree in engineering, preferably in Petroleum, Mechanical or Chemical Engineering. You will have a minimum of 15 years experience as a drilling engineer or foreman in the conventional oil industry. At least 10 years of this should be with a major international operator.

Why should you hire a Korea recruitment team?

Our Korea recruitment team was integral to supplying staff to the world's first FLNG venture, Prelude, and through our dedicated global mobility team we mobilised volume numbers of contractors throughout the project's various phases across Malaysia and Australia too.
