

Latest screw air compressor maintenance

Do rotary screw air compressors need maintenance?

Sticking to a rotary screw air compressor maintenance schedule will allow you to extend the compressor's life expectancy. Over the years of using the compressor, you will undoubtedly get a better return on your initial investment by inspecting the compressor regularly.

How to maintain an electric rotary screw compressor?

Keep an eye on running hours. Low load percentage can increase moisture build-up in the compressor fluid. Simple infographic highlighting some key maintenance tips for your electric rotary screw compressor, prepared by the air system specialists.

How long do rotary screw air compressors last?

Rotary screw air compressors are built to last for several years of professional quality operations. That said, all air compressors do have their limits and wish to be inspected periodically to ensure optimal performance for the duration of their lifespan.

How often should a screw compressor be serviced?

After every 1,000 to 3,000 hours of operation, the filters of your air compressor should be inspected and serviced as necessary. For best results, stick to the screw compressor maintenance checklist included in your instruction manual. Intervals vary greatly from unit to unit: On a weekly basis, inspect the condensate drain and clean if necessary.

What is preventive maintenance for screw compressors?

Preventive maintenance (PM) for screw compressors ensures optimal performance, extends lifespan, and minimizes costly repairs. Here are critical preventive maintenance techniques for screw compressors. 1. Regular Inspection and Monitoring Regularly check for unusual vibrations, noises, or temperature spikes.

How to maintain a screw air compressor?

To ensure proper motor health with your screw air compressor, you must make sure that the operating area is sufficiently ventilated during usage hours. To prevent overloading, keep track of the ampere draw. Most importantly, make sure that the motor bearings are properly lubricated during each inspection.
