

# Leasing down-the-hole drilling rig manufacturers

Where are drilling rigs made?

Most new onshore rigs, both drilling and work over rigs, are built by OEMs in China. In the US, the larger vertically integrated land drillers have in-house manufacturing operations, so they will outsource some equipment construction, but assemble the new rigs at their own facilities.

Does Drill Financing Group finance directional drills and rigs?

Often, equipment like drills and drill rigs falls outside of the bank credit window. Unlike banks, we have no age or collateral restrictions. We specialize in heavy machinery and finance lots of directional drills and drill rigs. Drill Financing Group is proud to offer leases and loans with more term options and greater flexibility.

How is the land drilling market structured?

The land drilling market worldwide is structured primarily as a rental market, not a sales market, where land drilling companies lease their rigs to E&P companies for an agreed period of time - weeks, months, or years - at a day-rate. The rigs are then used to drill wells and execute the E&P's drilling programs.

Does Drill Financing Group offer leases & loans?

Drill Financing Group is proud to offer leases and loans with more term options and greater flexibility. Ready to get started? [Click Get terms now.](#)

Who is drilling financing group?

At Drill Financing Group, we know the industry, understand boring and drilling needs, and have tailored our loan and lease financing products to fit the unique needs of businesses - whether they want to expand a large commercial fleet or simply replace an aging piece of equipment.

What is land drilling?

The practice of "land drilling" (or "onshore drilling") refers to the drilling of oil and gas (O&G) wells on land (as opposed to offshore drilling).
