

Lowest price for pole down-the-hole drill rig

What is a down-the-hole drill rig?

The rock drilling principle of a down-the-hole drill machine is the same as a heavy-duty rock drill rig. The difference is that the impact mechanism of the down-the-hole drill - is a down-the-hole impactor. It is installed at the front end of the drill rod, and at the bottom of the manhole.

Who makes the best DTH drilling rigs?

As one of the most professional DTH drilling rig manufacturers. YG Machinery has developed and produced a series of down-the-hole drilling rigs of different models. And almost all have become hot-selling models. In addition, our down-the-hole drilling rigs are sold to many countries and regions in the world.

What size utility pole drill does Center Rock offer?

Our mono-hammer utility pole drill offerings range from 3.5" - 24" (89mm - 610mm) and include hex connection, side inlet swivel, and all ancillary items. Additionally, only Center Rock offers Utility and HDD LP#174; Canister style utility pole drills 18" (457mm) and larger.

What is a crawler down-the-hole drill machine?

The crawler down-the-hole drill machine is currently a large-scale rock drilling equipment in general use. The down-the-hole drill rigs are actually rotary percussion drill equipment. The impactor is directly submerged into the bottom of the hole to drill the rock.

How deep can a rig Drill a hole?

Some models can drill holes in excess of 60 feet (18.3 meters) deep in a single pass, but maximum depth ultimately depends on the size of the mast and the rig as well as the length of the drill string. There are some rotary drills, for example, that can dig to almost 20,000 ft (6,100 m) below the surface in multiple passes.

What drilling products does Center Rock offer?

Center Rock Inc. provides state-of-the-art drilling products to support the utility industry. Our mono-hammer utility pole drill offerings range from 3.5" - 24" (89mm - 610mm) and include hex connection, side inlet swivel, and all ancillary items.
