

Marine air compressor screw

How does a marine screw compressor work?

The marine screw compressor revolves around the rotary movement of two helical screws. As air enters the compression chamber, it is compressed by the rotating screws, which decrease the air's volume and increase its pressure. This mechanism is essential for various onboard applications, from machinery operation to hull lubrication.

Why should you choose Mas oil-injected screw compressors?

Built to be your reliable supply of compressed air at sea, our MAS oil-injected screw compressors offer you a smart and innovative fully equipped solution. Setting the standard in marine compressed air Lubricants and filters for marine compressors

How to size a marine air compressor?

In a marine air compressor, sizing will be appropriate by design. A common mistake is to size according to industrial standards. The operational environment on shore is completely different from what you find on board a ship or an offshore installation. The screws push the air into an oil separator receiver. This unit consists of two stages:

What rotary screw compressors does Kaeser offer?

KAESER offers a complete range of rotary screw compressors, blowers, and air treatment products specifically designed for marine compressed air use, including application-specific service air, compressed air for nitrogen generation, and blower air for wastewater treatment systems on large cruise ships.

What are the advantages of a marine screw compressor?

Feature: 1. Box structure, convenient installation 2. Simple and smooth operation 3. Low noise 4. Low vibration 5. Stable performance This series marine screw compressors offer significant fuel savings compared to other types of marine compressors.

What is lgfd series marine screw air compressor?

It can be customized according to specific needs. LGFD Series Marine Screw Air Compressor revolves around the rotary movement of two helical screws. We offer LGFD-1.1/7-C, LGFD-2/7-C, LGFD-1.1/12-C, LGFD-1.2/12-C, LGFD-1.7/12-C, LGFD-3C, LGFD-2.8/7-C, LGFD-6C, LGFD-2.4/13-C...
