What is a GR oil injected compressor?

GR oil-injected compressors provide a reliable air supply of up to 20 bar for high pressure applications in the toughest working conditions. G (VSD) oil-injected screw compressor (2-250 kW) for reliable high-quality air, avoiding costly downtime and production delays. Even in the harshest conditions. The demands on air compressors are growing.

Are rotary screw air compressors oil free?

We provide a variety of compressed air technologies, including screw, scroll, centrifugal, and piston compressors. The most common of these are, of course, rotary screw air compressors. Rotary screw air compressors are available in two primary applications: oil free and oil injected. Here's a breakdown: Oil Free Rotary Screw Compressors

What is a rotary screw compressor?

Rotary screw compressors are designed for a wide range of users across various industries and applications. They are powered by two counter-rotating screws that compress air as it moves through the compressor. These units are designed for continuous use, capable of operating 24 hours a day, 7 days a week.

What type of compressor is best for low pressure air systems?

For low pressure air systems. The ZD (VSD) oil-free screw compressor and piston booster delivers high quality 100% oil-free dry air or nitrogen at medium and high pressure ratios. Variable Speed compressors (VSD): VSD technology is ideal for operations where demand for compressed air fluctuates.

What lubricant does a screw compressor use?

These compressors still use lubricants for other processes, like motor cooling, but some variants use water as an alternative lubricant. Oil-free types are known for their reliability, efficiency, and ability to deliver the highest air purity at the lowest TCO. Pure, oil-free air with AQ water-injected screw compressors.

What is ZE&ZA low pressure oil-free screw technology?

ZE&ZA low-pressure oil-free screw technology gives high performance even in heavy duty conditions. For low pressure air systems. The ZD (VSD) oil-free screw compressor and piston booster delivers high quality 100% oil-free dry air or nitrogen at medium and high pressure ratios.
