

# Mining blasthole down-the-hole drill rig

The DML rotary blasthole drill rig is a crawler-mounted, hydraulic tophead-drive rig that's suitable for a variety of multi-pass rotary and DTH drilling applications. It's designed specifically for ...

It's a commonly used method in the mining industry (blast hole drilling), waterwell drilling, construction, and in the oil and gas industry. In DTH drilling, the drill string rotates while the ...

Down-the-hole drill DTH drill tool operated with drilling mud (Drillstar MUDHammer) A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the ...

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the ...

The D50KX rotary/DTH blasthole drill features digitally driven enhanced productivity with features like high-precision TIM3D GPS navigation and the Knowledge Box™; for seamless connectivity ...

Rotary blasthole drilling is a sophisticated technique used in the mining and construction industries to create large, precise holes in a variety of rock types. This method relies on a ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

Down The Hole Hammer Drill Rigs for Mining, the ZEGA D470A's diesel-powered, down-the-hole (DTH) drill has excellent mobility, a smaller footprint and the ability to serve multiple sites. It is ...

The D50KX rotary/DTH blasthole drill features digitally driven enhanced productivity with features like high-precision TIM3D GPS navigation and the ...

The effectiveness of the blast hole drill rigs solution is critical in the dynamic world of mining to achieve maximum extraction of rich minerals. ...

Blast Hole Drilling Holes are drilled to insert explosives for rock fragmentation. This method is critical in open-pit mining and quarrying. ...

The method a blast hole drill rig uses to break rock determines its suitability for a specific geological environment. The three primary methods ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability

## Mining blasthole down-the-hole drill rig

and production with purpose-built structures, a high horsepower engine and large ...

The ZT5 integrated open-air DTH drilling rig is an advanced equipment featuring an automatic rod-changing system and ergonomic cab. It integrates a DTH drilling system with a screw air ...

Where is it Used? DTH drilling is often used in the mining industry (blast hole drilling), on construction sites, drilling water wells, and in the oil and gas industry.

The DM45/50 rotary blasthole drill rig along with their big brother, the DML, are some of the most popular drills in the world for good reason. All three models ...

Versatility, adaptability and performance for today's varying mining challenges The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built ...

Rotary blasthole drill rigs are renowned for their precision and depth, boosting productivity by making the process of blast hole drilling easier and more cost ...

High-impact DTH blast hole drills engineered for mining, quarrying, and construction blasting. CINTRL rigs feature low air consumption hammers, depth accuracy (&#177;0.5&#176;), and rugged ...

The rotary torque can be 2200N.m, which meets the needs of 76 drill pipe and 130 hole diameter. The rotation speed can reach up to 150 rpm, which meets ...

Auto Drill Eliminate over- and under-drilling by automating your complete drill cycle. Auto Drill automatically adjusts drilling commands based on material hardness, voids and other ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and construction industries. Features include a self ...
