What are the features of a jet milling/drilling machine?

This JET Milling/Drilling Machine has a 1-pc. cast iron column for added support, extra-large work table, positive quick-stop knob and easy-to-read internal depth gauge. Belt cover has quick-slide latch for faster belt adjustment to change spindle speeds.

How deep can a jet milling machine drill?

This JET Milling/Drilling Machine could be used to drill 12 inches deep with the correct 1 inch bits. It is important to note the spindle travel distance is 5 inches and the maximum distance from table to spindle is 18 inches. A floor mounted drill press with a longer spindle travel distance would be better suited for this type of job.

Can I use a mill/drill if I'm not familiar with the machine?

This machine is designed and intended for use by properly trained and experienced personnel only. If you are not familiar with the proper and safe use of mill/drills, do not use this machine until proper training and knowledge have been obtained.

What should I do if my mill/drill is heavy?

Machine is heavy! Use an appropriate lifting device and use extreme caution when moving the machine to its final location. Failure to comply may cause serious injury. The location for the mill/drill should be well lit, dry, and have room enough to allow the head to rotate 360°.

How do you lift a mill/drill with Mobil DTE oil?

Cover all cleaned surfaces with a light film of Mobil DTE Oil Heavy Medium. Open the belt cover and thread the lifting hook into the head. Carefully lift the mill/drill with properly rated equipment to a sturdy stand or work bench. Remove the lifting hook. Screw rubber handles (A, Fig. 1) onto handle rod (B, Fig. 1).

What is the maximum spindle travel distance for a floor mounted drill press?

It is important to note the spindle travel distance is 5 inches and the maximum distance from table to spindle is 18 inches. A floor mounted drill press with a longer spindle travel distance would be better suited for this type of job. See the link below for an option.
