Who makes Isel lubricants?

Isel Inc. is a division of the Dubois Chemical Company and has provided custom-blended air compressor lubricants around the world for over 25 years.

Do flooded rotary screw air compressors need lubricating oil?

The principles and importance of clean, warm lubricating oil are the same for all flooded rotary screw-type air compressors, so though there may be a variance on the operational order in your air compressor, the principles and required components remain the same.

What type of oil is used in a rotary screw compressor?

Mineral oils (petroleum oils) have long been used in various types of compressors. Their use in rotary screw compressors was common until the 1980's. Some manufacturers' factory filled with motor oil and some used automatic transmission fluid. Mineral oils began to lose favor when oil recyclers began to charge for oil disposal.

What is the most common contaminant in rotary screw compressors?

The most common and most damaging contaminant in rotary screw compressors and rotary screw vacuum pumps is water. The primary source of water contamination in rotary screw compressors is the inlet air. Ambient humidity and the compressors operating conditions affect water formation in the lubricant circuit.

Why is lubricant important in rotary screw compressors?

Lubricant is a critical component in rotary screw compressors. Understanding the characteristics of lubricant types helps ensure their proper application and increases customer satisfaction by extending the service life of compressors.

Which lubricant is best for screw compressors?

Their conclusion was that PAO lubricants were the best lubricants for rolling element bearings used in screw compressors. Pure PAO fluids have a tendency to cause certain low nitrile Buna-N elastomers and some other synthetic materials to become brittle and crack.

The performance, reliability, and maintenance cost of a rotary screw air compressor are heavily influenced by its oil. Both the condition of the oil while in service and the specific type of oil or ...
