What is a photovoltaic pile driver?

Photovoltaic Pile Driver Configuration Solar Pile Drilling Method - totally three different drilling procedure for PV drilling as following The pile driver drive the auger into soil directly by rotating, it is only for the soft ground such as soil, sand, soft clay. When drilling for hard formation like rock, hard clay.

How do rigs work?

When drilling for hard formation like rock,hard clay. It impossible to break the rock by auger drilling or other type drilling to make pile into ground directly. Rig has to works with air compressor together for percussive drilling. In this way,it can make a borehole firstly,then put the pile inside or concreting a pile.

How to install a solar pole in a rig?

Rig has to works with air compressor together for percussive drilling. In this way,it can make a borehole firstly,then put the pile inside or concreting a pile. When it needs to install the solar pole in more efficiency way and have it stably installed,hammering the pile into ground directlyis the best way.
