Why should you choose Sany equipment?

All SANY equipment comes standard with industry-leading features and is backed by the strongest warranties in the business. As the #6 ranked company on the KHL Yellow Table of global heavy equipment manufacturers, SANY is a trusted leader in the industry.

What are the best drill brands?

What are the best drill brands in your opinion? Makita, DeWalt and Milwaukee. Get whichever ever is on sale. Can't go wrong DeWalt or Ryobi= DIY brand turned prosumer brand. Cheapest price and less performance but not as bad as people make them out to be. I don't own any dewalt tools anymore but to say it's a diy brand like ryobi is offensive lol.

Which power source should I choose for my Rock Drill?

Choosing the power source for your rock drill can drastically affect performance and usability. Electric drills are favored for their consistent power output and ease of use, especially in confined areas. They eliminate exhaust fumes, making them suitable for indoor drilling tasks.

What type of drill is best for a rock piercing?

Rotary Drills: Best for penetrating hard rock, these utilize a rotating motion combined with some form of hammering. Impact Drills: These deliver rapid blows to break the rock as they drill, making them effective for tougher materials. Percussive Drills: Ideal for softer rocks, they operate with a percussion mechanism without the rotary function.

How do I choose the best apt Rock Drill?

Learn how to select the ideal APT rock drill for your specific tasks, covering key factors to consider for efficiency and optimal performance on the job. Drill through rock with ease. Our 9-60 lb Rock Drills hit 2,100-3,400 BPM, great for anchor holes, blasting prep, or tough surfaces. Use wet or dry with the APT valve for total jobsite control.
