How do you rebuild an air compressor pump?

Rebuilding the air compressor pump restores the pump's ability to efficiently compress air. If the tank won't build pressure because the pump seals or valve plate are worn, rebuild the pump using the manufacturer-approved air compressor parts. Most air compressor models use a kit for rebuilding the air compressor pump.

How do you install a compressor head?

Align the valve plate assembly (and cylinder gasket) with the compressor pump. (The cylinder gasket and the exposed valves should be facing the cylinder-side of the pump.) Align the head gasket with the valve plate assembly. Install the cylinder head. Install the head bolts.

Do air compressors need a rebuild kit?

Most air compressor models use a kit for rebuilding the air compressor pump. The rebuild kit includes the cylinder sleeve, piston and seals. Follow the steps in this repair guide and video to install the air compressor pump rebuild kit on Craftsman, Porter Cable, DeWalt and Devilbiss air compressors.

How does a screw compressor work?

A screw compressor can run loaded ('pumping air') or unloaded ('idle'). The inlet/loading valve opens and closes according to air demand. The inlet valve is controlled by a solenoid valve that supplies control air to the inlet/loading valve. Check solenoid valve coil and solenoid valve operation.

How do you reassemble a compressor pump?

REASSEMBLING THE UNIT [top] 8. Rebuild the compressor pump. Align the cylinder gasket with the valve plate assembly. (The gasket should be seated against the side of the valve plate that contains the exposed valves). Align the valve plate assembly (and cylinder gasket) with the compressor pump.

How do you replace a reed valve on an air compressor?

Place the new valve plate on the pump body with the reed valves positioned on the handle side of the air compressor. Position the pump head over the new valve plate with the muffler side of the pump head over the reed valves on the valve plate. Reinstall the pump head mounting bolts. Tighten the pump head mounting bolts to 7 foot-pounds.
