What is a screw compressor?

A screw compressor is a type of rotary compressor which compresses air due to screw action. The main advantage of using this compressor is that it can supply compressed air continuously with minimum fluctuation in delivery pressure. It is usually applied for low-pressure applications up to 8 bars.

Does industrial air power rebuild rotary screw air compressors?

We rebuild your air end and return it to you, like new! Industrial Air Power is your premier resource for air-end rebuilds for all rotary screw air compressors from 10hp up to 1000hp. With thousands of remanufactured air ends completed since 2008, Industrial Air Power offers a reputable, reliable air end rebuilding service with unrivaled prices.

What is a rotary screw compressor?

Rotary screw compressors are designed for a wide range of users across various industries and applications. They are powered by two counter-rotating screws that compress air as it moves through the compressor. These units are designed for continuous use, capable of operating 24 hours a day, 7 days a week.

What lubricant does a screw compressor use?

These compressors still use lubricants for other processes, like motor cooling, but some variants use water as an alternative lubricant. Oil-free types are known for their reliability, efficiency, and ability to deliver the highest air purity at the lowest TCO. Pure, oil-free air with AQ water-injected screw compressors.

What makes a good air compressor head?

An efficient head compresses more air with less energy consumption, which leads to higher compression efficiency and lower operating costs. The design, materials, and manufacturing precision of the head determine efficiency. A high-efficiency head should feature high volumetric and adiabatic efficiency to minimize energy loss.

How many HP is a rotary air compressor?

Industrial Gold 7.5 HP 30 gal. Horizontal Rotary Screw Air Compressor/Oil Cooler, 208 to 230V, 3 Phase
Industrial Gold 5 HP 30 gal. Horizontal Rotary Screw Compressor, 208 to 230V, 3 Phase, 18 CFM at 150 PSI
Industrial Gold 7.5 HP 80 gal. Enclosed Rotary Screw Compressor, 208 to 230V, 1 Phase
Industrial Gold 7.5 HP 120 gal.
