

Swedish second-hand air compressor screw recycling

How do I dispose of old air compressors?

One option is to take it to a recycling center that specializes in scrap metal. They will often accept air compressors and other metal appliances and dispose of them safely. Another option is to contact your local waste management company to inquire about their e-waste disposal services.

Should you sell or donate old air compressors?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases. Often, selling or donating old air compressors depends on their level of functionality. There are some more things to know about each of those options than just the basics.

Can you recycle an air compressor tank?

While the metals of an air compressor, including the motor, can be sold for scrap, the tank itself can be recycled. However, you will need to call ahead to a scrap metal recycler to ensure they can accept it. Alternatively, there are DIY projects that can be done with an air compressor tank if you have time and want to reuse it.

What should you do before recycling an air compressor?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases during the recycling process. Often, however, selling or donating old air compressors depends on their level of functionality.

Where can you sell an air compressor?

If your air compressor is still in working condition, and you think it's good enough quality that you could make some money off of selling it, then selling it may be the choice you'd make. Most social media marketplaces and auctions such as Craigslist, Facebook Marketplace, and eBay are good places to sell your compressor.

Can an air compressor be placed in a trash can?

No, an air compressor is too big to fit in the trash can. It typically consists of a motor, a tank, a pump, and some cords. To dispose of it, you'll need to separate every part possible for recycling.
