

Swiss down-the-hole drill manufacturer after-sales service

What drilling tools does drill King offer?

Drill King is able to offer a comprehensive range of DTH rock drilling tools and drilling equipment for any tough environment providing a cost-effective drilling solution. Our range includes various drilling bits types, each designed for specific drilling needs and conditions. Join us in Conventional Center, Las Vegas, Nevada, 2024 in Booth #657

What is a down-the-hole drill?

A down-the-hole drill, usually called DTH is mainly a pneumatic powered rock or ground drill, in which the percussive hammer is located directly behind the drill bit, so the percussion mechanism follows the bit down into the drill hole.

Who is drill King International?

It is our mission to deliver exceptional customer service alongside the highest quality premium drilling equipment and drilling tools at fair prices. Founded in 2004 by Randy Brose in Arlington, Texas, Drill King International quickly became a family enterprise when Larry Brose acquired the business a year later.

How does a drill bit work?

Air flushes cuttings up from the bottom of the hole. Drill pipes are added to the top of the drill string as the hole gets deeper. The piston directly strikes the impact surface of the bit, while the hammer casing gives guidance to the drill bit.

A Down-the-Hole (DTH) hammer is a specialized drilling tool renowned for its exceptional efficiency and precision in rock drilling operations. It functions on a ...
