

## Tire-type air-leg pneumatic rock drill

The hydraulic system has an increased drill rate compared to electrical systems, and it considerably more energy efficient than pneumatic drills. It saves your ...

ProDrill produces high quality Air leg rock drills, pusher leg rock drills, rock drilling tools, underground mining, tunneling, drifting, pneumatic air leg rock drills for 15 years

We are a professional rock drill manufacturer. Our Air-leg Rock Drill has various specifications, mainly YT29A, YT29, YT28, TY28A, YT27, YT26. The weight of the drill rig ranges from 20KG ...

Y28 hand held rock driller include all design, tunnelling and mining programs in distinct rock formations. They are sturdy designed, with high influence vitality and minimal air ...

A tool for every rock drilling job Make every liter of air count. Every pneumatic underground rock drill combines light weight, high torque and high impact ...

A pneumatic rock drill operates on a simple yet effective principle that harnesses the power of compressed air. At the core of this machine lies a ...

Rock drilling tools manufacturer ProDrill: Model No. YT28 Pusher Leg Rock Drills are applied for underground mining, drifting. Features: 1. Grouped control mechanism, quick of start up, with ...

Operation Steps Place the air leg in a stable position and adjust the angle of the rock drill. Turn on the air and water supply, start the rock drill, and begin drilling. Adjust the height and angle of ...

Y24 Hand-Held rock drill The YT24 leg-type rock drill is a highly efficient pneumatic rock drilling equipment widely used in mining, railway, transportation, and water conservancy construction ...

Chicago Pneumatic's Sinkers & Surface Rock Drills are well suited sinker drills that are ideal for a range of drilling applications. The pneumatic drill has a ...

The affordable air leg rock drill represents a cost-effective solution for mining, construction, and quarrying operations. This versatile pneumatic tool combines powerful performance with user ...

Discover the powerful and versatile air leg drill, featuring advanced pneumatic technology, ergonomic design, and superior drilling capabilities for mining and construction applications. ...

YT27 air leg pneumatic rock drill Weight: 27Kgs Working Air Pressure: 0.4 ~ 0.63 MPa Cylinder Diameter:

## Tire-type air-leg pneumatic rock drill

80 mm Drilling Hole Depth: 5 m Product description: ...

Air leg rock drill is rock drilling equipment with high impact energy, and lower air consumption is widely fitting for underground mine, railway traffic, water ...

Our rock drills are fully equipped to ensure long service life, high energy efficiency, low air consumption, as well as easy installation and operation. The ...

Small air consumption Smaller air consumption when compared with other pneumatic rock drills on the market, same air compressor can connect more rock drills and greatly improve working ...

Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, railway traffic, water ...

Air-leg rock drilling is a high efficiency rock drilling machine. It's widely used in mining and roadway drivage of drilling operation. Also it's a important tool for railway, water ...

Our rock drills are fully equipped to ensure long service life, high energy efficiency, low air consumption, as well as easy installation and operation. The rock drill machines are well ...

The YT28 Hand Held Pneumatic Air Leg Rock Drill is a powerful and efficient drilling tool commonly used in mining, quarrying, and construction applications. It is designed with a ...

YT24 air-leg rock drill is a high-efficiency rock drill machinery. It is widely applied to rock drivage and drilling of blast hole in various rock drill operations and is an important tool in such ...

Our Pneumatic Rock Drills Dominate The Air Rock Drill Market. Air Rock Drills Are Well Built, Durable And Powerful For Exploration Drilling. Get A Quote.

ProDrill produces high quality Air leg rock drills,pusher leg rock drills,rock drilling tools,underground mining,tunneling,drifting,pneumatic air leg rock drills for 15 ...

Product Description: Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, ...

Jack Hammer Y series of pneumatic rock driller are mainly used in mine, railway, water irrigation works and quarrying works to drill holes. Rock Drill Jack ...

The air leg rock drill represents a pinnacle of pneumatic drilling technology, combining power and precision in underground mining and construction applications. This versatile tool operates ...

## Tire-type air-leg pneumatic rock drill

Drill through rock with ease. Our 9-60 lb Rock Drills hit 2,100-3,400 BPM, great for anchor holes, blasting prep, or tough surfaces. Use wet or dry with the APT valve for total jobsite control.

YT24 air-leg rock drill is a high-efficiency rock drill machinery. It is widely applied to rock drivage and drilling of blast hole in various rock drill operations and is ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of  $f=8\sim 18$ . It may also be used with for making roof-bolting holes. ...

Air-leg rock drilling is a high efficiency rock drilling machine. It's widely used in mining and roadway drivage of drilling operation. Also it's a important tool for ...
