What is a screw compressor?

A screw compressor is a type of compressor that employs screws to continuously compress fluids. One notable example is the air compressor, where air drawn in from the intake is compressed between a pair of screws and discharged as compressed air. This is the principle behind screw compressors known as the twin-screw type.

Who makes electric air compressors?

Electric includes brands such as Sterling, ABB, and Leeson as well as wiring services and parts and accessories. Alup Kompressoren, founded in 1923 and based in Robassomero, Italy, is a manufacturer of compressed air solutions and compressors, including screw, piston, and oil-free compressors.
