

Video of water well drilling with a small household drill

What is a DIY well drill?

DIY well drilling involves making a water well on your property using your own tools and resources. This method can save money and provide a self-sustaining water source. It requires careful planning, the right equipment, and knowledge of local regulations. 2. How deep should I drill my well?

Can I drill my own water well by hand?

Our most popular video for those who are interested in drilling their own water well by hand. Known as a "Large Bore" DIY water well, this video has step by step instructions and diagrams to educate you on every aspect of your well. Click here for a written recap of the 5 steps described in this video.

How deep should a well be drilled?

: Only drill as deep as necessary. : Prevent contamination of local water sources. : Ensure the well does not become a source of contamination. Drilling a well by hand may seem like a big project, but with the right tools and a bit of patience, it's completely doable.

Can you drill a well yourself?

Drilling a well might sound like a tough task, but with the right tools and steps, it's something you can actually do yourself. I'm going to share my experience drilling a borehole using an EMAS hand pump and a standard hand drill.

How much does it cost to drill a well?

For irrigation and lawn watering, reaching an aquifer isn't necessary. You only have to drill under the standing water level. It is very likely that you can drill your own well. Many successful wells have been drilled using this well drilling method. It is cheap. You can expect the "drilling" portion of the project to cost about \$200.

How do you drill a water well?

It is somewhat similar to the rotary bit method which most real water well drillers use for water bore drilling. The DIY technique involves water pumped down the center of a PVC schedule 40 pipe used as both a drill stem and a drill bit. At the bottom end of the PVC pipe a "drill bit" is fashioned by cutting teeth into the end of the PVC pipe.
