

## What are the dimensions of a manual hydraulic rock drill

DP1500 is equipped with HL 1560, hydraulic top hammer rock drill. With high rotation torque, proper flushing and sophisticated, ergonomic Rock Pilot control system the rig adapts itself ...

Drill Controls Simple, full flow hydraulic valves eliminate the need for pilot controls or electric valves. All the hydraulic power that is needed travels from valve to function. This simple design ...

Operator's cabin, ROPS and FOPS approved Folding Boom system Automatic feed force control system Heavy duty track frames with single grouser pads and Hydraulic Tophammer Rock ...

Today the brand is found around the world on a range of pneumatic and hydraulic tools that includes breakers, rock drills, chipping hammers, clay-diggers, picks and busters, scabblers, ...

TECHNICAL SPECIFICATION Sandvik HLX5 hydraulic rock drill is designed for face, bolt and long hole drilling. Sandvik HLX 5 is standard rock drill for example in Sandvik hydraulic ...

DX700 is equipped with HL 710, hydraulic top hammer rock drill. With high rotation torque, sufficient flushing and sophisticated ergonomic drilling control system the rig is well suited also ...

Efficient control system Sandvik RD314 / RD315 are compact, robust and universal hydraulic percussive rock drill. It is known for its hydraulic efficiency and high penetration rate. The SBH ...

Perfect for underwater drilling as well. Both rock drills are high performers when it comes to drilling speed and reliability. Consult your HYCON salesperson for more information regarding drilling ...

The modern, powerful hydraulic rock drill and the smooth drilling controls system allow high drilling performance with good drill steel economy and high machine reliability. The operating ...

TECHNICAL SPECIFICATION Sandvik DS311D is a one-man-operated electro-hydraulic rock bolter for rock reinforcement in underground mines with small and medium cross sections.

SANDVIK DD210L UNDERGROUND DRILL RIG TECHNICAL SPECIFICATION Sandvik DD210L is a low profile single boom electro hydraulic drilling machine designed to work in excavations ...

TECHNICAL SPECIFICATION Sandvik DB120 is a completely self-contained unit for secondary breaking using drill-split method. It breaks oversized boulders in a safe and efficient way to ...

# What are the dimensions of a manual hydraulic rock drill

The HRD system consists of the rock drill, power pack and a selection of pusher legs. Together they have two missions: The first is to provide hydraulic drilling that helps you exceed your ...

**DL210 LONGHOLE DRILL TECHNICAL SPECIFICATION** Sandvik DL210 is a compact and flexible electro-hydraulic longhole jumbo for production drilling in underground mines. ...

**SURFACE DRILLS TECHNICAL SPECIFICATION** Ranger DX700 is a hydraulic, self-propelled, crawler based surface drilling rig equipped with a cabin (F.O.P.S. and R.O.P.S.) and rod ...

Pantera 1100 is equipped with HL 1000, hydraulic top hammer rock drill. With high rotation torque, proper flushing and sophisticated, ergonomic drilling control system the rig adapts itself easily ...

The RD927L is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side bolts; ...

The rock drill can be connected to various hydraulic power sources, such as excavators, trucks, loaders, tractors etc., and of course HYCON powerpacks, the design of which ensures your ...

StopeMaster(TM) hydraulic production drill is designed for bulk mining applications capable of drilling 64 mm to 106 mm holes. The unit is diesel powered and self ...

The rock drill and articulated boom are mounted on the turnable superstructure giving a drilling coverage of 17,6 m<sup>2</sup> (optionally 26,4 m<sup>2</sup>). The powerpack of DX800 consists of a Caterpillar ...

**TECHNICAL SPECIFICATION** Sandvik DT1331i is a computer-controlled three boom electro-hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavations. Drill rig has ...

**TECHNICAL SPECIFICATION** Sandvik HL710 hydraulic rock drill is designed for long hole drilling of 64 - 115 mm diameter holes. It is used in Sandvik underground production and surface drill ...

The extreme compact design of Sandvik H200 hydraulic percussive rock drill, when mounted on the TUC bolting head, provides to Sandvik bolters an ability to install bolts wherever it is need ...

**SURFACE DRILLS TECHNICAL SPECIFICATION** Ranger DX800 is a hydraulic, self-propelled, crawler based surface drilling rig equipped with a cabin (F.O.P.S. and R.O.P.S.) and rod ...

Typical applications for DX900i are road cutting, pipe-line drilling and foundation drilling, as well as production drilling in medium size quarries. Therefore DX900i is most often used by ...
