

## Where is the rock drill parts processing factory

Who makes a rock drill?

Omnia Machinery provides a number of the largest manufacturers of rock drills available, including Atlas Copco, Sandvik and Tamrock to name just a few.

Where are our drills made?

All of our drills are manufactured exclusively in Austria. Reliable manufacturing technology guarantees the best possible quality, bit after bit. The specialists for particularly applications. Even the hardest concrete cannot resist. It doesn't get any faster. It doesn't get any harder. Specially for working high-tensile and stainless steels.

Can timberock international repair a rock drill?

Timberock International has over 25 years of experience in the repair of pneumatic and hydraulic rock drills. We offer an affordable alternative for the repair of most models of rock drills. Our repair facility includes all the required machinery to repair body components, and test your rock drill before being returned to the customer.
